**Governance Reviews Open Government Review of Romania** OECD, 2023-07-07 The Open Government Review provides  
an evidence based assessment of the country's open government agenda against the ten provisions of the OECD  
Recommendation of the Council on Open Government. The review takes stock of past reform efforts and provides guidance  
for Romania in designing, implementing, monitoring and evaluating an integrated policy agenda to improve the relationship  
between government and citizens and the way they interact      *OECD Public Governance Reviews: Czech Republic Towards  
a More Modern and Effective Public Administration* OECD, 2023-03-30 The OECD Public Governance Review of the Czech  
Republic identifies priority governance areas for reform in the Czech Republic and offers recommendations to strengthen the  
effectiveness, agility and responsiveness of the country's public sector. The review first provides a snapshot on the  
effectiveness of the public administration and its capacity to address contemporary governance challenges such as  
digitalisation and climate change      **Research Handbook on Open Government** Mila Gascó-Hernandez, Aryamala

The Open Government Review of Brazil provides an evidence based assessment of the country's open government agenda  
against the ten provisions of the OECD Recommendation of the Council on Open Government      [From Information to Smart  
Society](#) Lapo Mola, Ferdinando Pennarola, Stefano Za, 2014-10-16 This book presents a collection of research papers focusing  
on issues emerging from the interaction of information technologies and organizational systems. In particular, the individual  
contributions examine digital platforms and artifacts currently adopted in both the business world and society at large, people  
communities, firms, governments, etc. The topics covered include virtual organizations, virtual communities, smart societies,  
smart cities, ecological sustainability, e-healthcare, e-government, and interactive policy making. The book offers a  
multidisciplinary perspective on a variety of information systems topics. It is also particularly relevant to information systems  
practitioners such as IS managers, business managers, and policy makers. The content is based on a selection of the best

papers original double blind peer reviewed contributions presented at the annual conference of the Italian chapter of AIS which was held in Milan Italy in December 2013 *Wikipedia and the Politics of Openness* Nathaniel Tkacz, 2014-12-19 Few virtues are as celebrated in contemporary culture as openness Rooted in software culture and carrying more than a whiff of Silicon Valley technical utopianism openness of decision making data and organizational structure is seen as the cure for many problems in politics and business But what does openness mean and what would a political theory of openness look like With Wikipedia and the Politics of Openness Nathaniel Tkacz uses Wikipedia the most prominent product of open organization to analyze the theory and politics of openness in practice and to break its spell Through discussions of edit wars article deletion policies user access levels and more Tkacz enables us to see how the key concepts of openness including collaboration ad hocracy and the splitting of contested projects through forking play out in reality The resulting book is the richest critical analysis of openness to date one that roots media theory in messy reality and thereby helps us move beyond the vaporware promises of digital utopians and take the first steps toward truly understanding what openness does and does not have to offer

*Words and Worlds* Veena Das, Didier Fassin, 2021-05-10 Born in a time of anxiety *Words and Worlds* examines some of the disquieting challenges that societies now face Through an inquiry into a political lexicon of commonsense words ranging from democracy and revolution to knowledge and authority from inequality and toleration to war and power the contributors to this book trouble the self-evidence of these terms bringing into view the hidden transcripts and unexpected trajectories of many settled ideas such as the human sense of belonging or the call for openness and transparency in research and public life The case studies conducted over five continents with the tools of eight different disciplines challenge the ethnocentric assumptions false moralism and cultural prejudices that underlie much discussion on corruption or even the virtue invested in resilience The critique of the ubiquitous use of crisis to characterize our times shows how this framing obscures the unjust conditions of existence and the violence of everyday life Together the essays in this volume offer a fresh look at the deeply connected worlds we inhabit in solidarity and in discord Contributors Banu Bargu Veena Das Alex de Waal Didier Fassin Peter Geschiere Behrooz Ghamari Tabrizi Caroline Humphrey Ravi Kanbur Julieta Lemaitre Uday S Mehta Jan Werner M ller
