

Creating the Warranty application and operators

Scenario

The first thing that needs to be done to start your development work is to create an application. This exercise helps you to create a Framework based application as well as an Implementation application.

The **Warranty** application needs to be developed for an Organization called **RGB**. But keeping future updates in mind, the senior system architect suggested creating a Framework application first and then create an implementation over the Framework.

Use the following credentials to log in to the exercise system:

Role	Username	Password
Administrator	administrator@pega.com	install123!

Your Assignment

Your assignment consists of the following tasks:

Task 1: Create a new application.

Create the Warranty Framework with an organization as RGB. Then create the Warranty application based on the Warranty Framework.

Task 2: Update the password for the new operator id.

Create the operators Admin@rgb and financesp@rgb.

Task 3: Login with new operator id.

Verify the operator was created by logging in. Create a new case named Warrant.

Task 4: Update the operator's default portal.

Set the default portal for the operator's access group to use Dev Studio.

Task 5: Verify your work.

Login with the operator id and verify the portal

NOTE: Detailed steps to complete your assignment can be found on the pages that follow.

Detailed Steps

Task 1: Create a new application.

Create a new Framework application.
