Opinion Writing Ruggero J. Aldisert,2009 This book is based on real life experiences where the possibility of the living being able to communicate with the deceased is investigated

The belief in reincarnation and life after death raises a tantalising question Can the living communicate with the dead Most churchmen and scientists are sceptical but many people including churchmen and scientists believe such a thing is possible

considered a supernatural communication or a means of divine intervention whose message could be unravelled by those with certain powers In modern times various schools of psychology have offered theories about the meaning of dreams In

Communication with the Deceased is meant to serve only as a basis for reflection in order for the reader to examine all the clues and then derive further meaning from specific circumstances of his her own dreams To be able to interpret a dream one does not need to have an academic degree in psychology What is important is to use one s instinct and common sense

Try to develop your own personal insights into what the common symbols in your dreams mean When it comes to dream symbols there are no equivocally universal rules or meanings Dreams dictionaries help by providing hints at the meaning of symbols that appear in one s dreams This book is of value to those studying psychology and those participating
