Advanced Fiber Optics Luc Thévenaz, 2011-01-01 Fiber Optic Sensor Technology and Applications , 2005

Advanced Fiber Optics Luc Thevenaz, 2011-04-04 This book provides a comprehensive treatment of the field of modern fiber optics beginning with the basics of the field summarized in an introductory chapter Expert contributors then topics such as polarization effects in optical fibers photonic crystal fibers highly doped optical fibers non linear effects amplification and lasing i **Fiber Optic Sensor Technology and Applications III** Michael Alan Marcus, B. Culshaw, John Dakin, 2004

Proceedings of SPIE present the original research papers presented at SPIE conferences and other high quality conferences in the broad ranging fields of optics and photonics These books provide prompt access to the latest innovations in research and technology in their respective fields Proceedings of SPIE are among the most cited references in patent literature

Reviews in Fluorescence 2004 Chris D. Geddes, Joseph R. Lakowicz, 2012-11-08 Reviews in Fluorescence 2004 the first book of a new book series from Springer is a collection of current trends and emerging hot topics in the field of Fluorescence This annual review series differs from Springer s current Topics in Fluorescence series in that it is more specialized and includes reviews of an individual s own work or scientific perspective Reviews in Fluorescence will therefore complement the other fluorescence titles published by Springer whilst feeding the requirement from the fluorescence community for annual informative updates and developments Key features Reviews in Fluorescence will be citable indexed and available both in print and online Reviews in Fluorescence will be published annually Reviews in Fluorescence will comprise invited review articles that summarize the yearly progress in fluorescence Alternate years will publish the Invited Papers from the Methods and Applications in Fluorescence conference series MAFS **12th International Conference on Optical Fiber Sensors**

Polymer Sensors and Actuators Yoshihito Osada, Danilo E. De Rossi, 2013-03-09 Sensors and Actuators using polymeric systems is one of the most promising fields of Intelligent Polymers which is becoming more and more important associating with artificial sensing and actuating systems in living organisms Some practical applications have now started to test in industry The book covers optical gas taste and other sensing systems using various kinds of polymers Soft and wet actuating systems using polymer gels and networks are another field which caused excitement in the last year The contributors are all pioneers in the field and were selected from world wide level They provide the necessary background information and science to develop a basic understanding of the field its supporting technologies and current applications Besides the overviews will provide a sense of how these supporting technologies can be combined to meet the requirements of advanced systems Finally the readers will learn about potential future developments Photonics Applications in Industry and Research IV Ryszard S.
