Pandora emerges as the first sign of female complexity In this compelling study Vered Lev Kenaan offers a radical revision of the Greek myth of the first woman She argues that Pandora leaves a decisive mark on ancient poetics and shows that we can unravel the profound impact of Pandora s image once we recognize that Pandora embodies the very idea of the ancient literary text Locating the myth of the first woman right at the heart of feminist interrogation of gender and textuality Pandora s Senses moves beyond a feminist critique of masculine hegemony by challenging the reading of Pandora as a one dimensional embodiment of the misogynist vision of the feminine Uncovering Pandora as a textual principle operating outside of the feminine Lev Kenaan shows the centrality of this iconic figure among the poetics of such central genres as the cosmological and didactic epic the Platonic dialogue the love elegy and the ancient novel Pandora s Senses innovates our understanding of gender as a critical lens through which to view ancient literature
