Rainbow Dreams: 35 Years Of Empowering Children With Autism And Other Developmental Challenges Kenneth K Poon, Sze Wee Tan, Faridah Ali Chang, Manoj Pathnapuram, Kenneth Lyen, 2022-11-15 This book discusses the management of individuals on the autistic spectrum as well as other developmental challenges. It provides an excellent resource guide for parents, caregivers, educators, healthcare workers, psychologists, and everyone involved in the care of differently abled and autistic persons. The approach is practical and the aim is to try to gain deeper understanding into these conditions. Based on the experience of the staff and parents of the Rainbow Centre, the management is a person-centred, multidisciplinary and quality of life focused approach to helping these persons. The book also covers the history and future directions across one's lifespan in the care of these individuals. **AACRAO's Basic Guide to Enrollment Management** Craig E. Westman, 2005

Harper, 2015-09-23 Gain a comprehensive understanding of the role that parents and families play in college students' lives through their involvement starting with K-12, moving through the transition to college and then focusing on the college experience itself. The authors broaden the conversation to reflect the actual and diverse array of parents and families that play vital roles in students' collegiate experiences. Particular attention is paid to diverse families including students of color, first-generation college students and low-income students, an agenda for more inclusive research theories and practices with the goal of broadening the conversation to reflect the diverse array of parent and family engagement and standards models and best practices that might be applied more broadly and modified as needed. As a whole, this volume offers an expanded way of thinking about how higher education understands, engages and serves the needs of parents and families. This is the 6th issue of the 41st volume of the Jossey-Bass series ASHE Higher Education Report. Each monograph is the definitive analysis of a tough higher education issue based on thorough research of pertinent literature and institutional experiences. Topics are identified by a national survey. Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication. *Campus Technology*, 2009-08 University of Michigan
