Since RDA has increased granularity in the description of music whether in score recording video or data formats the expert direction offered in Cataloging beyond the Notes makes it a key reference for music cataloging. Bibliographic records are presented using MARC21. An essential resource for practicing music catalogers Cataloging beyond the Notes begins with a comprehensive introduction including instructions on how to use the book and presents examples of the granular data that informs users about specific details. In addition the examples are augmented by the authors commentary so that the result is expert guidance in a single highly accessible publication.
