The Merger Mystery Geoff Meeks,J. Gay Meeks,2022-06-23 Statistical studies over the last forty five years show that although there are success stories very many mergers and acquisitions do not result in the increased operating profits that economics textbooks would lead one to expect As consultancy McKinsey have put it Anyone who has researched merger success rates knows that roughly 70% fail Yet mysteriously M A activity has boomed across the globe with a forty fold increase in deals done each year now compared with four decades ago in spite of the adverse general evidence How can it be that talented energetic highly skilled law abiding income maximising participants in the M A market will often promote mergers that lead to no operating gains frequently with adverse effects on the wider economy too Drawing on findings from a wealth of statistical analyses and case evidence from many businesses the book presents answers to this merger mystery In a synthesis of ideas from several disciplines solutions are detected in misaligned incentives distorted financial engineering and information asymmetry By revealing how weaknesses at multiple points can interact and cumulate to produce inefficient outcomes the discussion serves as a corrective to the overwhelmingly positive tone of most commentary on M A whilst also advocating changes in participants contracts in taxation and in regulation which could significantly reduce the number of mergers that fail Designed to be accessible to a wide readership the book will be of interest to investors to M A practitioners and commentators to researchers and students of economics political economy finance management and accounting and importantly to policy makers working in these areas

Strategic Deals in Emerging Capital Markets Irina

Ivashkovskaya,Svetlana Grigorieva,Eugene Nivorozhkin,2019-12-09 The industrial development of emerging markets has been a powerful driver for mergers and acquisitions The contributions collected in this book assess major M to identify deal performance relationships and the determinants of success or failure to reveal the drivers for the premium in M and to capture market responses to different M A strategies By doing so the book makes a significant contribution to the literature which has to date largely focused on developed markets
