

## **Early life and education**

- Avul Pakir Jainulabdeen Abdul Kalam was born on 15 October 1931, to a Tamil Muslim family in the pilgrimage centre of Rameswaram on Pamban Island, then in the Madras Presidency and now in the State of Tamil Nadu.
- His father Jainulabdeen Marakayar was a boat owner and imam of a local mosque.
- His mother Ashiamma was a housewife.
- His father owned a ferry that took Hindu pilgrims back and forth between Rameswaram and the now uninhabited Dhanushkodi.
- Kalam was the youngest of four brothers and one sister in his family.
- His ancestors had been wealthy Marakayar traders and landowners, with numerous properties and large tracts of land. Marakayar are a Muslim ethnic group found in coastal Tamil Nadu and Sri Lanka who claim descent from Arab traders and local women.
- The family business had involved trading groceries between the mainland and the island and to and from Sri Lanka, as well as ferrying pilgrims between the mainland and Pamban.
- With the opening of the Pamban Bridge to the mainland in 1914, however, the businesses failed and the family fortune and properties were lost by the 1920s, apart from the ancestral home. The family was poverty-stricken by the time Kalam was born. As a young boy he had to sell newspapers to add to the family's meager income.
- In his school years, Kalam had average grades but was described as a bright and hardworking student who had a strong desire to learn.
- He spent hours on his studies, especially mathematics.
- After completing his education at the Schwartz Higher Secondary School, Ramanathapuram, Kalam went on to attend Saint Joseph's College, Tiruchirappalli, then affiliated with the University of Madras, from where he graduated in physics in 1954.
- He moved to Madras in 1955 to study aerospace engineering in Madras Institute of Technology.
- While Kalam was working on a senior class project, the Dean was dissatisfied with his lack of progress and threatened to revoke his scholarship unless the project was finished within the next three days. Kalam met the deadline, impressing the Dean, who later said to him, "I was putting you under stress and asking you to meet a difficult deadline."
- He narrowly missed achieving his dream of becoming a fighter pilot, as he placed ninth in qualifiers, and only eight positions were available in the IAF.

book Dr Kalam's vision for an educated and connected society is beautifully expressed. The way he emphasizes rural talent and lifelong learning makes this book a must read for anyone striving for personal and societal transformation. A fascinating read that blends technology, education and governance into a vision for the future. Some parts were a bit technical but overall this book is highly motivating and provides valuable insights for students and professionals alike. Dr Kalam's wisdom shines through every page. The metaphor of a tree beautifully illustrates the importance of nurturing knowledge at every stage of life. A powerful book for those seeking inspiration and guidance on their journey of self discovery. A good book with insightful ideas but I felt some sections were repetitive. While the vision is compelling I wished for more real life examples to connect with the concepts better. Still a worthy read for those interested in self growth and leadership. This book is a treasure trove of wisdom. It not only motivates individuals but also provides a roadmap for societal progress. Dr Kalam's vision is truly remarkable making this book a must read for anyone who believes in the power of education and transformation.
