

PDF Filler

PDF Filler is a software application designed to fill PDF documents with placeholder text. It is used for testing and development purposes, allowing users to quickly generate PDF files with realistic content for testing their applications. The software typically provides options to select the number of pages, the amount of text, and the font style and size. It can also simulate various PDF features like tables, images, and links. The generated PDFs are often used to ensure that the layout and formatting of a document are correct before it is finalized.
