Defensible Faith Robert Ryan,2023-07-19 A persistent dumbing down of religious faith and the perception that science is the only path to truth are key reasons the Nones those with no religious affiliation represent nearly fifty percent of all young adults in America today God and science are falsely portrayed as conflicted and innately incompatible Afraid to offend this new status quo and unable to defend religious beliefs against increasingly aggressive intellectual bullying the young have flocked to the safety of no belief In *Defensible Faith* author Robert Ryan demonstrates that God and science are both true and are both necessary in understanding ourselves and the world around us He looks at how science provides many compelling arguments for belief in God as well as the more philosophical justifications for faith and the evidential basis supporting Christianity If you have ever struggled to defend your faith in an intellectually well reasoned manner then let this book be your guide
