Inequality throughout historical times has always occurred in various forms such as socially, economically, racially and even in areas concerning gender. Some of the major ways in which inequality has affected many states within the international system are in the areas of income and wealth which many scholars place under the umbrella of economic inequality. Inequality is a subject which dated as far back as during the days of slave trade and colonialism. **The Philosophers' Magazine**, 2001 The Review of Metaphysics, 1996 Philosophy in Science, 1997 *The Bookseller and the Stationery Trades' Journal*, 1992 Official organ of the book trade of the United Kingdom
