Nightfighter The Battle For The Night Skies:

Nightfighter Ken Delve,1995 Gives an account of World War II British and German defenses against night bombing explaining the history of night fighting and the technology behind it **Fateful Rendezvous** John B Lundstrom,Steve Ewing,2012-04-15 Fighter pilot Butch O Hare became one of America s heroes in 1942 when he saved the carrier Lexington in what has been called the most daring single action in the history of combat aviation In fascinating detail the authors describe how O Hare shot down five attacking Japanese bombers and severely damaged a sixth and other awe inspiring feats of aerial combat that won him awards including the Medal of Honor They also explain his key role in developing tactics and night fighting techniques that helped defeat the Japanese In addition the authors investigate events leading up to O Hare s disappearance in 1943 while intercepting torpedo bombers headed for the Enterprise First published in 1997 this biography utilizes O Hare family papers and U S and Japanese war records as well as eyewitness interviews It is essential reading for a true understanding of the development of the combat naval aviation and the talents of the universally admired and well liked Butch O Hare The Night Air War Martin W. Bowman,2015-07-31 Of the 7 953 Bomber Command aircraft lost on night operations during the Second World War an estimated 5 833 fell victim to Luftwaffe night fighters In this detailed re enactment of the air war over Western Europe and the raids flown by the men of RAF Bomber Command the author has pieced together official data and the words and memories of the pilots and air crew who participated in the proceedings Across fifteen chapters many unique experiences are regaled enlivening the history of the night bombing raids that were hurled against Hitler s war machine during the latter half of the Second World War They span the period between November 1943 and 1945 and cover the encounters between the Luftwaffe and RAF Bomber Command during their heyday No Operation Was Easy was a commonly coined phrase amongst this group who night after night struck out at targets such as the The Big City Berlin Stuttgart and the Ruhr These truly epic stories gleaned from the memories of the men who made up Bomber Command serve as an appropriate epitaph to their collective effort **The Bristol Blenheim** Graham Warner,2005 This is a truly comprehensive account of the Blenheim s origins development and operational history *Nightfighter* Mark A. Magruder,2012-01-24 A biography of the leader of the top scoring Nightfighter Squadron who risked their lives flying through darkness in the Pacific Theatre of World War II During World War II the job of a nightfighter was akin to a deadly game of hide and seek in a pitch black sky Each pilot s life literally depended on his radio link to support personnel on the ground Electrical failures could be catastrophic and engine trouble usually proved fatal Unlike other fighter pilots these men had zero visual perspective Alone in a cockpit it was easy for their minds to play tricks on them but for nightfighters a few moments of vertigo were a death sentence No one knew this better than then ranked Lt Col Marion Milton Black Mac Magruder His highly classified training program required each of his scrappers to identify every part of the cockpit environment by sound smell and touch Strict innovative and intense this no nonsense marine would lead his men to the

Okinawa Campaign in an emergency deployment after a year in combat in the longest over water flight of single engined fighters in the Pacific Theatre just to get into the fight During their time on Okinawa and Engebi VMF N 533 also known as Black Mac s Killers experienced the worst typhoon season the island had seen in several hundred years They also would become the target of the Giretsu when the ruthless Japanese suicide warriors attacked Yontan Air Field the only attack of its kind during the war And even though the squadron arrived one month after battle commenced the 533 held the record for all radar intercept kills Black Mac s Killers set many records and earned many distinctions during the war including the Presidential Unit Citation This biography follows Magruder through his military career highlighting his accomplishments as leader of the top scoring Nightfighter Squadron in the Pacific Theatre

Night Fighter H. E. Bates,2018-02 It is no surprise that the Air Ministry chose an author of H E Bates talents to portray the battle over the night skies of Britain whilst the war against Germany was still to reach its conclusion For his rich prose excites and inspires as much as it informs Bates opens his stirring story by analyzing the comparative efforts of the RAF and the Luftwaffe during the Battle of Britain and the decision by the Germans to turn to attacking British towns and cities first during daytime then as losses mounted at night At first the RAF s night fighters achieved only limited success with the ground stations and the pilots unable to track down the intruders in the dark But that was soon to change The volunteers of the Royal Observer Corps became increasingly adept at identifying the movement of enemy planes by sound alone and to help the antiaircraft batteries defending London lines of sound locators were established which measured the course and speed of the intruders to be measured enabling the batteries to calculate the point and time that the enemy would cross the barrage line It was a similar method of radiolocation that enabled the RAF s night fighters to hunt down the enemy bombers and to make the British night skies a deadly battleground for German machines Whilst antiaircraft guns accounting for most

of the enemy aircraft destroyed over Britain in the early months of the Blitz as the war progressed the RAF's night fighters became increasingly effective as new technologies were adopted that enabled pilots to locate their enemies H E Bates tells a tale of harrowing scenes of destruction in London Coventry and across Britain delivered by an unseen and seemingly unstoppable enemy that gradually evolves into one of success and victory and it is written with the consummate and concise prose of a master raconteur

The Last War of the Superfortresses Leonid Krylov, Ilya Tepsurkaev, 2016 This work is an attempt by the authors to give as full and detailed a history as possible of the confrontation between Soviet fighters and the principal strike force of the United States Far East Air Force the B 29 Superfortress bombers during the course of the Korean War between 1950 1953 Military documents which the authors have studied over many years of work in the Central Archive of the Ministry of Defense of the Russian Federation in Podolsk as well as published Western sources form the basis of this book The recollections of pilots who served in the 64th Fighter Air Corps and who participated personally in the events described are also widely used Almost all the battles that took place between Soviet fighters and the Superfortresses are analyzed in detail the authors have on the basis of a comparison of Soviet archive documents and data from published Western sources attempted to clarify the actual losses on both sides in these battles Particular attention has been paid to key events in the history of the confrontation between the MiG 15 and B 29 such as the air battles of April and October 1951 which had a significant impact on the course of the Korean War and influenced the development of military aviation in both the USSR and the USA Following the encounters on the approaches to the bridges at Andung of 12 April 1951 Strategic Air Command decided against using Superfortresses close to the area around the MiG bases The outcome of a series of air battles from 22 to 27 October 1951 the most famous of which was the battle between MiGs and B 29s in the area close to the airfield at Namsi on 23 October Black Tuesday was a ban by Strategic Air Command on daylight operations by Superfortresses in the Soviet fighter's zone of operation These battles also influenced the technical policy of the United States Air Force in relation to strategic bombers Extensive losses in combat with the MiGs served as one of the most influential arguments for curtailing the piston engine B 36 and B 50 bomber programs and boosting development of one of the most famous aircraft in the history of global aviation the B 52 Stratofortress Night operations to which the B 29s and subsequently Soviet fighters were transferred are also analyzed in detail in this book These nocturnal operations culminated in the air battles of December 1952 and January 1953 After sustaining losses in these battles that were comparable to those of October 1951 the Superfortresses would subsequently only carry out nocturnal sorties to the MiGs zone of operation in poor weather conditions In this work the authors have analyzed the advantages and the disadvantages of the La 11 and the MiG 15bis the principal fighters of the 64th Fighter Air Corps from the point of view of their ability to intercept the B 29s Attention has been paid to the tactics of the opposing sides and to how these changed over the course of the war The technical aspects of the confrontation between Soviet fighters and Superfortresses have been examined and the reasons

behind the different periods of success or failure in terms of performance in combat have been identified A great deal of statistical material has been provided in this book which characterizes combat operations carried out by the B 29s and the fighters of the 64th Fighter Air Corps both within the text itself and in the form of easy to use tables The book is illustrated with photographs obtained both from the personal archives of veterans of the 64th Fighter Air Corps from the Central Archive of the Ministry of Defense of the Russian Federation and US National Archives Color profiles showing camouflage markings are also included
