Book Complex Circulatory System Wondrous Machine:

The Complex Circulatory System Dr. Lainna Callentine, 2016-04-07 Developed by a pediatrician this book focuses on the amazing design and functionality of the human body's circulatory system. You will discover amazing facts like The human heart beats 100 000 times a day and one drop of blood has 5 million red blood cells in it. A timeline of important discoveries and innovators as well as key anatomical terms and concepts. Discussions of disease and proper care for optimal health. The third book in the popular elementary anatomy series God's Wondrous Machine focuses on the heart, blood and blood vessels that make up the body's circulatory system. Understanding the mechanics of this system in transporting nutrients, blood, chemicals and more to cells within the body is key to understanding how it helps fight disease as well as maintain a properly balanced temperature. Readers learn how the deliberate design of their bodies enables it to function as it should just as God meant for it to

The Electrifying Nervous System Dr. Lainna Callentine, 2014-09-01 Discover Your Design Developed by a homeschooling pediatrician this book focuses on the amazing design and functionality of the human body's nervous system. You will discover The main areas and structures of the brain and what important role each plays in making your body work. Awesome examples of God's creativity in both the design and precision of human anatomy showing you are wonderfully made. Important historical discoveries and modern medical techniques used for diagnosis and repair of the brain. Learn interesting and important facts about why you sleep, the function of the central nervous system, what foods can superpower your brain functions and much more in a wonderful exploration of the brain and how it controls the wondrous machine known as your body

Breathtaking Respiratory System Dr. Lainna Callentine, 2015-04-01 An elementary level exploration of the human body's respiratory system focused on structures, function, diseases and God's wonderful designs. Fast facts and important discoveries that help medical professionals understand the mechanisms of our lungs, sinus, cavities and diaphragm. Find out why the common cold isn't so common after all. Hundreds of viruses can cause the over 1 billion cases of the common cold each year. With a loud piercing wail most of us entered this world as a crying baby taking in our first big breath of air. Breathe in, Breathe out. You hardly notice your respiratory system at work every minute day and night, awake or asleep without fail. From our first breath to our last, breathing is truly essential to life. Come on a captivating odyssey through the wind tunnels of the body and be prepared to be amazed. What happens when we hold our breath? What powers the over 23 000 breaths each of us takes daily? The surface area of the alveoli in your lungs alone could cover the surface of an entire tennis court. Breeze in and learn more about these and the other incredible examples in the God's Wondrous Machine series with The Breathtaking Respiratory System
