French & English : A comparison Philip Gilbert Hamerton, 2023-07-11 In *French English A Comparison* Philip Gilbert Hamerton embarks on an illuminating exploration of the linguistic cultural and artistic interplay between the two nations. Written with Hamerton's signature clarity and insight, the book employs a comparative framework that examines not only the structural differences between the French and English languages but also the myriad ways in which these differences reflect broader cultural values and historical contexts. Hamerton's literary style combines rigorous analysis with anecdotal observations, rendering complex concepts accessible to the reader while situating the discussion within the broader European intellectual discourse of the late 19th century. Philip Gilbert Hamerton was a British painter, printmaker, and writer whose deep-seated interest in aesthetics and languages characterized much of his work. Hamerton's experiences in France and his engagement with its art and literature informed his understanding of the subtle nuances of both languages, providing a unique perspective that blends personal reflection with scholarly rigor. His background in the arts enriches his analytical style, making his observations resonate with depth and immediacy. *French English A Comparison* is an essential read for linguists, literary scholars, and cultural enthusiasts alike. Hamerton's insightful examination encourages readers to contemplate the broader implications of language as a reflection of cultural identity. The book serves not only as a scholarly resource but also as a compelling narrative that bridges two rich traditions, inviting readers to engage with the complexities of cross-cultural communication. In this enriched edition, we have carefully created added value for your reading experience. Hand-picked Memorable Quotes shine a spotlight on moments of literary brilliance. Interactive footnotes clarify unusual references, historical allusions, and archaic phrases for an effortless, more informed read. **Working in a Survival School**

Lee Del Col, Garth Stahl, 2023-05-31 *Working in a Survival School* documents how global educational policies trickle down and influence school cultures and the lives of educators and educational leaders. The research traces the everyday work and experience of educators within an all-boys Catholic college suffering an unprecedented decline in enrolment numbers. In short, it was a school in survival mode. Drawing on Dorothy Smith's scholarship on Institutional Ethnography, the authors document how the school operated and how its efforts to survive influenced the daily work of educators. Institutional ethnography reveals the school as a bounded space subject to a variety of competing local and translocal forces that are historical, political, and economic in nature. Exploring the discursive and material effects of policy on both the work and identities of educators, the authors illustrate how the everyday experience of being an educator is shaped by marketisation and how leaders engage in stratagems to promote the school as a vehicle of educational excellence and quality to lure clientele. Building on existing scholarship in educational policy studies and new public management, *Working in a Survival School* considers how the global marketisation of education systems is experienced in one school fighting to survive. This book is of interest to educators, school leaders, and academics interested in policy enactment. **Practical College**
