MARKETING LESSONS Makarand Upadhyaya ,Binod Mishra,,Saveeta Pawar,2021-05-29 Solving a marketing case study doesn't only mean understanding one company. You need to focus on the entire market associated with that company. Without a market, the company cannot have a business to focus on. And that's why companies create market segments to categorize where the business would be more successful. Why do companies make it to the top ranks? Because of the stronger foundation and thorough understanding of the market. When you choose a case to study, you choose a whole bunch of related cases in it. As mentioned in the first chapter, there are six ways to write a case study. Your objective should be clear, and your research should be focused on the specified factors of the companies. Marketing case studies are different. Your focus is not only on the specifications of the case but rather on the promotional and marketing strategies applied by the case to gain recognition. Today, the market has changed a lot; companies are evolving, and naturally, the marketing strategies are changing with time. Social media is making more impact than television or news marketing. However, traditional marketing ways are still alive, and some companies are still using them. For example, Casper uses banners and posters in public areas yet plans social media campaigns. Spotify uses television ads in some countries to target different sets of audiences.

Matatu Work Meghan E. Ference,2024-11-26 Focuses on the lives and labour of the men and women who work in Nairobi's publicly operated privately owned minibus taxis matatu. How can mass transit systems be designed in ways that respond to the needs of urban citizens in the midst of an impending climate crisis? What strategies can transport workers employ as they adapt to shifts in the global economy? This book focuses on the lives and labour of the men and importantly women who work in Nairobi's publicly operated privately owned minibus taxis matatu to examine questions about access to urban public space, gendered regimes of work and neoliberalism that lie at the heart of debates on the future of African cities. Providing an in-depth view of workers' routines and the unwritten rules that govern informal transport sectors, this book is an ethnography of Nairobi's popular transportation workforce with a focus on strategies that circulate both economic cash, vehicle investments and symbolic capital, new linguistic codes, music and elements of style in ways that keep the city moving. In the face of a rapidly changing urban and global landscapes, Matatu Work considers the ways in which urban transport has provided expression of marginalized perspectives as well as decolonial struggles. Shedding new light on transportation practices and urban growth, the book invites the reader to take another look at the ways in which public transportation is not just an urban solution to practical problems of space and movement but also how it is a place of sociability, performance, protest and consumption, and central to the making of sustainable cities.

Art of Modern Oriental Management Sing Ong Yu, 2017 This book aims to present an overview of Chinese Japanese and Korean modern management styles The cultures of China Japan and Korea are influenced by Confucianism Daoism and Buddhism As such there are some basic similarities in their management styles As business operations become more internationalised the management styles among Chinese Japanese and Korean companies have blurred the lines of distinction between Western and Eastern cultures The need for Western managers to adapt to Asian way of doing business and likewise for Asian companies to understand Western business practices means that managers have to bridge the gaps and adopt the best management practices containing both Western and Eastern elements Unlike the traditional approach of setting clear differentiation between Western and Eastern cultures this book looks at Oriental management from a modern perspective that is the fusion of Western and Eastern management styles By using a multifaceted approach to understanding modern Oriental management the author stresses the complexities of the business environment in China Japan and Korea He suggests that Western theories of management are applicable to Eastern cultural context with some adaptations to the local environment The author also offers valuable insights into the management styles of Oriental managers by providing a critical perspective of their thought processes in simple yet highly relevant illustrations of models and frameworks This book is
