Want to lose weight and indulge in easy-to-make great-tasting food at the same time? With *The Everything Healthy Meals in Minutes Cookbook*, you're on the path to quick cooking and good eating. Packed with recipes that suit any taste, this cookbook offers meal alternatives low in calories, carbs, and/or fat. You'll find tons of recipes that use all of your favorite ingredients without tempting you to deviate from your diet. Delicious appetizers and entrees will satisfy all your cravings without adding the calories you don't want. From salads and seafood to meaty meals and desserts, you have hundreds of options for any time of day, including: Scrumptious appetizers such as Shrimp Skewers with Pineapple; Light salads such as Arugula Salad with Summer Squash; Easy lunches such as Pan-Seared Veal Chops with Spinach; Dishes for one such as Chicken Apple Sausages with Dijon Glaze; Family dinners such as Thai Inspired Spicy Beef Lettuce Wraps; Delicious desserts such as Chocolate Fudge Mousse with Coffee Whipped Cream. Complete with a nutritional breakdown of carbohydrates, protein, and fat, *The Everything Healthy Meals in Minutes Cookbook* is all you need to satisfy your hunger the smart way at home or on the go.

**The Humachine** Nada R. Sanders, John D. Wood, 2024-03-11. Updated for a post-Covid world, the second edition of this groundbreaking book explains why becoming a Humachine enterprise is the only way forward for a company to maintain a competitive advantage in the age of artificial intelligence (AI). The first edition of *The Humachine* offered a foundation for a new form of enterprise integrating AI technology and human resources to optimize the unique advantages possessed by each. Now, in the face of the Great Resignation and botsourcing (where an activity previously done by humans is replaced by technology), thought leaders Sanders and Wood present a more positive and promising scenario where an enterprise recognizes human resources as an asset class that possesses skills that cannot be replaced by automation. Enlightened business leaders will look to create synergy between technology and people, enabling the organization to maximize its capabilities by elevating the basis of decision-making with closer-to-perfect information and rationality. This book provides a roadmap for how to do this and achieve collective intelligence at the enterprise level (superintelligence). More specifically, it answers these questions and more: Why must an enterprise achieve superintelligence as a competitive advantage in the age of AI? How can any organization achieve superintelligence by following the 4 I model? What is the step-by-step process an enterprise should follow in becoming a Humachine? What strategies can be used by enterprise leaders to futureproof the Humachine against uncertainty? All business leaders, executives, and managers at companies wanting to use AI and technology to survive and thrive in this new age, and students of analytics and decision-making will value this thought-provoking and practical book rich with case studies.
