Application of Image Processing and Knowledge Reasoning in the Construction of New Power System Fuqi Ma, Bo Wang, Hengrui Ma, Yikui Liu, Rong Jia, 2025-03-12. The power system is undergoing changes in terms of grid formation technology foundation and operational characteristics, which are placing higher requirements on the perception and cognitive capabilities of the current system. This necessitates the urgent promotion of new power systems construction incorporating digital and intelligent technologies to serve the energy transformation. AI plays a crucial role as one of the key driving technologies for the digital transformation of energy. It encompasses an exclusive AI formed by the fusion of relevant theories, technologies and methods of AI with the physical laws, technologies and knowledge of power systems. From the perspective of perception and cognition, the exclusive AI primarily consists of two research directions: 1. The application of perceptual intelligent technologies such as image recognition in scenarios like equipment defect recognition and construction site safety monitoring. 2. The application of cognitive intelligence technologies such as knowledge question answer and knowledge graph in scenarios like power knowledge retrieval and intelligent question answer. By leveraging power production knowledge and AI technology, intelligent perception and cognition of the operational status can effectively meet the urgent needs of the power industry development. This Research Topic focuses on the application of image processing and knowledge reasoning in the power industry. It utilizes multi-source power industry image data, employing image intelligent processing, deep semantic knowledge mining and other technical methods to achieve intelligent perception and cognition of the power system's operation status. The goal of this Research Topic is to enhance the digital and intelligent level of the power system and propel the construction and development of the new power system to a new level. **Bottom Line's Smart Consumer**, 2004.
