this but I m not very tech savvy I live out in the boonies on a homestead with farm animals and crops growing year around I recently became curious as to whether or not essential oils could be used on animals and if so what for Essential oils can be used with animals in much the same fashion as they are used with humans They can be used as a topical treatment diffused in an enclosed pen with an animal or diluted and mixed in with the food for internal benefits Pets are an integral part of many families As such families like to be able to provide their pets with every advantage available especially when it comes to illnesses or injuries This guide book reveals several ways that essential oils can be integrated into the life of your pets Many of the same safety precautions must be adhered to and as always seek professional veterinarian advice before using essential oils on your pets To Your Happiness Wellness Ann Sullivan **Pets, Benefits and Practices** British Small Animal Veterinary Association.
