At a time of unprecedented change in Higher Education the book looks closely at how sport management education can and should deliver positive outcomes in sport business and management outside of the university. The book brings together sport management academics from around the globe and examines how their practice in education has been shaped by the cultural, religious and political context of the national regions in which they work. It aims to identify core principles in sport management education and implementation and discusses the key aspects of sport management programmes from curriculum design and pedagogy to issues around unified accreditation and the needs of employers. It also focuses in on what sport management education might look like in an increasingly digital post COVID world. This is essential reading for all sport management educators and anybody working in sport related professions looking to understand global educational platforms and their implications for policy at local, regional, national and international level.
