*Wink Wink Nudge Nudge* Brook Urick, 2024-09-25 Fall into the sugaring underworld with Brook who worked behind the scenes at notorious sugar daddy website *SeekingArrangement* while trying her own luck as a sugar baby Part coming of age memoir and part expos with a twist of grim dating advice Brook's story parallels her unusual relationship history with her ascension working for a pseudo dating website designed to protect predatory men Through media manipulation and dangerous lies the company acts as an agency for sex trafficking and exploitation on an enormous scale Her story points a spotlight on this dark corner of the internet and its insidious prominence in modern society Between pressures from a controversial CEO and the confusion of navigating her own misguided sex work she learns the truth about an evil machine that hides pedophiles in plain sight Many underage sex trafficking reports from law enforcement and women's centers cite a sugar daddy website as the root cause of abuse A law was passed in 2018 called FOSTA SESTA that holds websites criminally responsible for their part in facilitating the internet sex trade So why aren't these websites being investigated Brook is wondering the same thing

**Law and Technology** Nanci K. Carr, 2024-09-26 Technology is an important part of our everyday lives Whether we ask Alexa to start the coffee machine or check our phones for the traffic report we increasingly interact with technology As much as we may enjoy and rely upon technology it is not without its challenges including the inability of the law to keep pace with technological developments and the ethical issues that arise For example tort law is impacted by technology the proliferation of drones requires a new look at the law of trespass and video Zoom meetings can impose direct liability on employers for example Social media supports an increasing share of all advertising and endorsements and is subject to regulation of which influencers are often not aware Global advertising expenditures on various internet and social media platforms also drives the need for a change in right of publicity law In the United States the right of publicity is governed by state rather than federal law so there is no uniform approach One part of the book includes a survey of the law of each US state and proposes a new federal statute Although most of the examples are drawn from the US the issues raised are fully international in scope and relevance This book will appeal to legal practitioners trying to manage new technology issues facing their clients academics teaching students how the law is changing and needs to continue to change as technology develops and teachers and researchers in business and management schools needing to address technology and governance issues
