Cinematic Narratives Of Concern: Global Perspectives In Public Discourse Dr Ruchi Goswami, 2025-01-29 In the vast and ever expanding landscape of cinema where stories unfold across screens of varying sizes and cultures a remarkable phenomenon occurs Cinematic narratives often transcend mere entertainment they become potent vehicles for addressing dissecting and sometimes even resolving the most pressing concerns of our time This book Cinematic Narratives of Concern Global Perspectives in Public Discourse embarks on a journey to explore this intersection between cinema and public discourse where the silver screen becomes a mirror reflecting the complexities of our world In the following pages readers will encounter an array of cinematic landscapes each offering a unique lens through which to view global issues From the bustling streets of Tokyo to the desolate plains of Africa from the neon lit cities of America to the serene villages of Europe cinema traverses borders and boundaries to illuminate the shared concerns that unite humanity At the heart of this

exploration lies the recognition that cinema is not merely a form of entertainment but a powerful medium for communication education and empathy. Through the artful weaving of narrative imagery and sound, filmmakers have the ability to provoke thought, evoke emotion, and inspire action on a global scale. This book is not intended to be a comprehensive catalog of every cinematic narrative of concern; for such a task would be as endless as the stories themselves. Instead, it offers a curated selection of films that exemplify the diverse ways in which cinema engages with public discourse. Whether tackling issues of social justice, environmental sustainability, political unrest, or cultural identity, each film featured in these pages offers a glimpse into the complexities of our world and the myriad perspectives that shape it. As readers embark on this journey through cinematic narratives of concern, I encourage them to approach each film with an open mind and a critical eye. For it is through dialogue, debate, and reflection that we can fully appreciate the transformative power of cinema and its ability to spark meaningful change in our world. Ultimately, this book with 17 segments of cinema studies is a testament to the enduring relevance of cinema as a medium for exploring, understanding, and confronting the challenges that define our times. It will serve both as a guide and an inspiration for all who seek to engage with the world around them through the lens of cinema.

**Reparative Media** Aymar Jean Escoffery, 2025-12-16. How to repair our culture by reimagining how we make media and use technology to connect with one another. Can producing stories and developing platforms to support people who have been harmed by multiple intersecting systems heal those systems? In *Reparative Media*, Aymar Jean Escoffery argues that this is exactly how we repair our culture and heal harms from racism, sexism, classism, homophobia, transphobia, ableism, and religious discrimination by reconsidering how we make media, how we connect through technology, and how we generate knowledge. Based on five years of deep, complex work cocreating an independent alternative to platforms like Netflix and YouTube, the author reveals the process behind developing OTV Open Television to stream stories by diverse creators. The book shows that planting seeds for a more community-based media and tech ecosystem can also reform corporate systems better than so-called diversity, equity, and inclusion (DEI) programs, as the platform helped elevate creators on social media and in Hollywood at companies like HBO, Netflix, and more. Combining theory and practice, local production and global distribution, Chicago and Hollywood, the book paints a portrait of what a healing media ecosystem looks like and shows how communal ways of knowing can cultivate reparative media, technology, and research that benefit everyone no matter how they identify.

**Winning Through Platforms** Ted Moser, Charlotte Bloom, Omar Akhtar, 2023-12-10. Every company needs a platform to thrive. How can you succeed when your markets get platform crowded? This book, a how-to win playbook, shows you the way.

**Framework Using AI and Computer Vision** Haolin Xie,Yu Sun,2022 At present many video editing software have been

created but what they all have in common is that they require manual work to edit And it takes a lot of time and the user

needs to watch each frame before editing In this paper we have developed a program about AI intelligence The most

important point of this software is that it can automatically focus the face of a person and edit only selected clips of the

person to make a complete video Users only need to prepare the video they want to edit and a photo of the main character

Then upload both to the software and AI Intelligence will automatically edit it providing the user with a way to download and

save it after editing the main character they need we applied our application to an example video using the Marvel character

Hawkeye as he appears in End Game and tried many experiments with the clip eventually we tried many experiments with

the clip and finally got a video of our selected character The results show that this software saves the user a lot of time and is

highly efficient All operations are carried out by AI **Add Music To Video & AI Editor** Navneet Singh, Table of Contents
