*Zero to IPO: Over \$1 Trillion of Actionable Advice from the World's Most Successful Entrepreneurs* Frederic Kerrest, 2022-04-19 WALL STREET JOURNAL BESTSELLER From the cofounder of a 40 billion software company comes an invaluable guide packed with 1 trillion worth of advice from some of the world's most successful and recognizable entrepreneurs. Over the past 20 years first as an early employee at Salesforce and later as a cofounder of Okta, a publicly traded software company now valued at over 40 billion, Frederic Kerrest has met the most successful entrepreneurs and investors in Silicon Valley and beyond. He's discussed every angle of entrepreneurship with them: what works, what doesn't, and what to do when things get rough, and he's taken notes. The result is this unmatched blueprint for building and growing a business, drawn from his own experience as well as that of his fellow visionaries and business leaders who have collectively built over 1 trillion worth of wealth for themselves and their investors. They include Marc Andreessen and Ben Horowitz, Andreessen Horowitz, Eric Yuan, Zoom, Stewart Butterfield, Slack, Aneel Bhusri, Workday, Julia Hartz, Eventbrite, Aaron Levie, Box, Fred Luddy, ServiceNow, Melanie Perkins, Canva, Patty McCord, Netflix, Sebastian Thrun, Udacity, and dozens of other luminaries. These ideas and practices aren't taught in business schools. They've been learned the hard way through trial and error in the real world of business. Kerrest has battle tested them himself, so he knows their power. Organized by topic in roughly the order that leaders will encounter them as they scale their businesses, this book is the ultimate guide to taking a company all the way from founding to IPO and beyond.

be addressed empirically. It explores different qualitative research methodologies which although well established in other fields are yet to be extensively used in TS but which may nevertheless prove to be of significance for future studies as they allow elusive concepts typically found in TS to be worked with more coherently. Chapters are structured around two core ideas: first the qualitative systematic analysis of source text content with emphasis on the detection of translation problems as a means of creating efficient frameworks for coherent decision making from a functional perspective and secondly the practical process of stereotyping and profiling specific problems within different contexts, content types or services to help identify, manage and resolve them in a number of settings from research to professional translator training and assessment environments. This book will be of interest to scholars in translation studies, particularly those with an interest in qualitative approaches.
