## Memes Today Latest Login:

**The Meme as the Message** Joanna Nowotny, Julian Reidy, 2025-10-31 This book sheds light on the phenomenon of memes covering everything from pandemic humour to far right propaganda from feminist memes to algorithmic censorship. Memes are far more than light entertainment they are complex cultural artefacts that play a role in politics in art and in platform economics. Taking a cultural studies perspective the authors analyse individual memes in entertaining case studies systematising their findings in order to redefine this digital form of communication. Chapters connect memes with other digital phenomena such as trolling and combine extensive close readings of exemplary individual memes with regards to form and aesthetics with an acute awareness of power dynamics and other context phenomena surrounding memes. The book develops an innovative theoretical approach that presents the term memesis to capture the very specific quality of meme production and reception as a form of collective creative rewriting of a template in accordance with algorithmic logic. Offering an important contribution not only to the still young field of meme studies but also to the general negotiations of questions around digital literacy this book will interest not only scholars and students of digital media visual communication cultural studies and media and politics but anyone with a keen interest in digital culture and how it shapes our lives.

Essentials of Visual Interpretation Rachel R Reynolds, Greg Niedt, 2020-12-29 Essentials of Visual Interpretation explains how to talk and write critically about visual media and to examine how evolving visual environments media and technologies affect human selfunderstanding and culture formation. The authors include rich examples and illustrations ranging from cave paintings to memes from optical science to visual analytics from ancient pictographs to smart phones that engage students with the fascinating complexity of visual interpretation. Each chapter introduces students to key terms and concepts relevant to visual analysis with ideas for short individual or group exercises to enhance understanding. The book is ideal as a primer in visual analysis and visual communication for students in courses within communication studies cultural studies digital humanities semiotics media studies and visual anthropology. Online support materials include multimedia activities for students and links to additional resources for students and instructors.

You and Your Profile Hans-Georg Moeller, Paul J. D'Ambrosio, 2021-05-25 More and more we present ourselves and encounter others through profiles. A profile shows us not as we are seen directly but how we are perceived by a broader public. As we observe how others observe us we calibrate our self presentation accordingly. Profile based identity is evident everywhere from pop culture to politics marketing to morality. But all too often critics simply denounce this alleged superficiality in defense of some supposedly pure ideal of authentic or sincere expression. This book argues that the profile marks an epochal shift in our concept of identity and demonstrates why that matters. You and Your Profile blends social theory philosophy and cultural critique to unfold an exploration of the way we

have come to experience the world Instead of polemicizing against the profile Hans Georg Moeller and Paul J D Ambrosio outline how it works how we readily apply it in our daily lives and how it shapes our values personally economically and ethically They develop a practical vocabulary of life in the digital age Informed by the Daoist tradition they suggest strategies for handling the pressure of social media by distancing oneself from one's public face A deft and wide ranging consideration of our era's identity crisis this book provides vital clues on how to stay sane in a time of proliferating profiles
