Broadcasting Baseball Eldon L. Ham, 2011-07-29 There is a long standing relationship between broadcasting and sports and nowhere is this more evident than in the marriage of baseball and radio, a slow sport perfectly suited to the word painting of broadcasters. This work covers the development of the baseball broadcasting industry from the first telegraph reports of games in progress, the influence of early pioneers at Pittsburgh's KDKA and Chicago's WGN, including the first World Series broadcast, the launch of the Telstar Satellite, the Carlton Fisk home run in the 1975 World Series, which changed how baseball is broadcast through the latest computer graphics, HD television, and the Internet.

Sports Finance and Management Jason A. Winfree, Mark S. Rosentraub, Brian M. Mills, 2011-08-29 This definitive text on sports management and finance focuses on how the modern sports team has evolved. Addressing the fact that the 21st Century sports team has turned to a real estate development, media, and entertainment corporation, this book focuses on the how and why of the change rather than traditional finance topics such as borrowing money, ticket pricing, and player compensation. It includes an assessment of ownership structures and discusses real estate development, facility designs, and their fit into urban centers.

Routledge Handbook of Sport and COVID-19 Stephen Frawley, Nico Schulenkorf, 2022-08-24 This book examines the initial impact of the coronavirus pandemic on global sport and the varying consequences of the sport shutdown on all levels of society. It also considers the many lessons that have been learnt so that sport stakeholders can successfully adjust and operate under the new normal. Featuring authors' cases and examples from around the world, the book explores the impact of COVID-19 on sport at all levels, from community sport where local clubs, gyms, and development programmes had to find ways to survive with pitches closed and projects cancelled, to the major professional sport leagues and sport mega events with events postponed and teams playing in empty stadia. It considers the economic, social, and developmental impacts of the pandemic, including physical, mental, and social wellbeing, and looks at how key professional and community sport organisations have reacted to the crisis, reflecting on the lessons learnt and preparations for future pandemics and challenges of similar size and significance. With COVID-19 now endemic in the global population, this is an essential reference for anybody working in sport, from students and researchers to managers, policymakers, and development officers.
