Living the Brand Nicholas Ind, 2007-10-03 Your company's workforce is its most valuable asset. It is the employees who translate your organization's strategy into reality, interact with consumers and determine the corporate brand. Living the Brand demonstrates how you can empower and enthuse your employees to create brand champions. This approach enhances employee commitment, improves service standards and focuses efforts to deliver business goals. This practical inspirational book shows you that employees flourish in organizations where they identify with the brand and organizations flourish when the brand has relevance and creates meaning. Using original international case studies such as IBM, SAS, Airlines, UNICEF, Apple and Nike, Living the Brand shows you how to make this happen through research, training, communication, management and review. It examines the nature of branding and why people have become such important definers of their brand. Living the Brand is a CarbonNeutral publication. To offset the carbon dioxide emissions generated in the book's production, native trees have been planted with Future Forests.

VUCA in Start-ups Dr. Aseem Chauhan, Prof. (Dr.) Manoj Joshi, Prof. (Dr.) Ashok Kumar & Suhayl Abidi, 2021-12-25 How to Thrive as a Start Up in an Uncertain World. What motivates a start up in its journey? Wealth and fame? Or is it hunger for innovation? VUCA in Start Ups attempts to capture a start up's entrepreneurial journey and find out why some do well when others don't. It's a highly volatile environment out there for entrepreneurs and start ups thanks to the unprecedented Covid 19 crisis filled with volatility, uncertainty, complexity and ambiguity. VUCA. Many businesses that did well in the past had to shut shop as a result. So what went wrong? To find the answer, it's important to understand what worked in the past and why a new venture must discover fresh and innovative opportunities to survive. Learn from those who chose the road less travelled, including Zomato, Paytm, Flipkart, Ola Cabs and Quikr, and discover the underlying causes for start up successes and failures. These well-researched case studies aim to inspire those who wish to embark on an entrepreneurial journey.

The Power of the Purse Fara Warner, 2006 Women now drive some 80% of all buying decisions. By 2010 they'll account for half of America's private wealth, 13 trillion dollars. A few remarkable companies have learned how to refocus on women and in so doing have achieved truly stunning results. In The Power of the Purse, top journalist Fara Warner takes you behind the scenes at those companies, revealing how they did it and how you can too. Unlike previous books on marketing to women, this one doesn't settle for generalities; it offers in-depth start-to-finish case studies. Discover how McDonald's turned around its business by recognizing women as full-fledged consumers, not just Moms. Learn how Kodak's digital camera business soared from fourth to first by recognizing women's importance as family memory makers. See how P & G built Swiffer into a cultural revolution and how the diamond industry did the same for right-hand rings. Watch Bratz topple Barbie. Torrid created its enormously successful plus-size stores for teenagers, and Avon connects with a radically new generation of women. From Nike to Home Depot, each story is unique, but in every case these companies put women at the center of their strategies and listened intently to what real women consumers were telling them.
