The Cryptopians Laura Shin, 2022-02-22 The story of the idealists, technologists, and opportunists fighting to bring cryptocurrency to the masses. In their short history, Bitcoin and other cryptocurrencies have gone through booms, busts, and internecine wars, recently reaching a market valuation of more than 2 trillion. The central promise of crypto endures: vast fortunes made from decentralized networks not controlled by any single entity and not yet regulated by many governments. The recent growth of crypto would have been all but impossible if not for a brilliant young man named Vitalik Buterin and his creation, Ethereum. In this book, Laura Shin takes readers inside the founding of this novel cryptocurrency network, which enabled users to launch their own new coins, thus creating a new crypto fever. She introduces readers to larger-than-life characters like Buterin, the Web3 wunderkind; his short-lived CEO, Charles Hoskinson; and Joe Lubin, a former Goldman Sachs VP who became one of crypto's most well-known billionaires. Sparks fly as these outsized personalities fight for their piece of a seemingly limitless new business opportunity. This fascinating book shows the crypto market for what it really is: a deeply personal struggle to influence the coming revolution in money, culture, and power.

**Online Community Therapy Will** Henderson, Mary Jackson Pitts, 2022-09-28 This book explores how online therapy communities offer an accessible space that is not confined by economic abilities, geographical barriers, or familial restraints. Will Henderson and Mary Jackson Pitts use mixed methodologies of self-administered surveys and in-depth interviews to explore how online therapy communities can be used as a tool in the overall care of individuals who are in crisis and dealing with self-harming thoughts and behaviors. Faced with monetary constraints, lack of insurance coverage, and close connections who have no experience in addressing self-harming behaviors, this book highlights online therapy community members' experiences and insight into how online therapy communities have been helpful and may be helpful for others who choose to be a part of these communities. Scholars of communication, sociology, and psychology will find this book of particular interest.
