Impact Keith V. Lucas, 2025-08-19 Impact explores the people and culture teams need for sustained innovation and problem solving. This transformative guide is aimed at leaders who have earned their roles through subject matter expertise a capacity for impact and innate leadership skills and who now face the challenge of building innovative teams. This is the high impact engineer turned manager or the rising scientist turned lab director or the founding startup executive. Subject matter proficiency and leadership intuition can initially take leaders far but team performance ultimately hits a wall when leaders lack team building expertise. Impact guides individuals across the leadership spectrum from the new player coach to the seasoned team builder helping them sidestep common scaling pitfalls such as diminished team impact lower productivity culture dilution disempowerment and loss of focus. It presents a two tiered framework that examines culture as a system and leadership as a discipline. The first tier offers team wide practices to drive focus cultivate alignment and unlock collective brainpower and horsepower. The second tier provides individual centered practices to ensure the team hires promotes and retains those most likely to contribute to the mission. Drawing from Keith V Lucas's direct experience in building teams and advising startups, Impact offers practical insights for effective team building and leadership.

The Right Sensory Mix Diana Derval, 2022-04-08 Many companies fail to acknowledge and analyze disparities observed among customers and simply put them down to culture or emotion. New neuroendocrinological research proves that people are rational. They just have a different biological perception of the same stimulus. Their preferences behavior and decisions are strongly influenced by the hundreds of millions of sensors monitoring their body and brain. People with more taste buds are for example sensitive to bitterness and are more likely to drink their coffee with sugar or milk or to drink tea. This book helps product managers marketers and corporate decision makers understand and predict customers behavior and preferences. It provides the tools to design the right sensory mix color shape depth taste smell texture and sound for each product and fine tune their positioning and range for every local market. Using cases from different sectors the author shows that this approach delivers planet and people friendly innovations which have a higher chance of success in the market.
