

## READING

### Paragraph & Passage Comprehension

- Paragraph types:**
  - Expository:** Explains, describes, or informs.
  - Technical:** Gives directions or instructions about a specific subject (e.g., instructions on how to put something together).
  - Narrative:** Tells a story.
  - Persuasive:** Persuades or convinces.
- Important terms:**
  - Topic:** The general subject of the paragraph or passage.
  - Main idea:** The purpose of the paragraph or passage.
  - Supporting details:** Used to explain or illustrate the main idea.
  - Thematics:** Central ideas or concepts that are explored by the paragraph or passage.
  - Context:** The set of circumstances or facts that surround a particular event or situation.
- Author's purpose (four types):**
  - Persuade:** Convince the reader to agree with the author (e.g., sales letters, campaign speeches).
  - Inform:** Give information or enlighten (e.g., instructions, directions, teaching materials).
  - Entertain:** Amuse readers (e.g., novel, short story, poem, play).
  - Express:** Share thoughts or feelings (e.g., journal entries).
- Text structure:**
  - Cause and effect:** The cause is why something happened; the effect is what actually happened.

EX: I won't allow my kids to use social media unless they give me their passwords. They think I'm just being nosy, but they don't realize that I'm trying to protect them from online predators.

In this example, the effect is that the kids won't use social media unless they give the parent their password. The cause is online predators.

**Chronologically:** The events in the passage happen in the order they occur.

EX: I met my husband while we were still in high school. After we both finished college, we got married. Then we both got jobs and worked for two years before starting a family.

Here is the chronological order of the events: (1) met husband, (2) went to college, (3) got jobs, and (4) started a family.

**Compare and contrast:** To compare means that you are looking for similarities between two or more things; contrast means that you are looking for differences.

EX: The Notebook and Romeo and Juliet are both love stories. In both stories, two young people fall in love, and their parents don't approve of their unions. In Romeo and Juliet, the two lovers die young by their own hands

so that they can be together. In The Notebook, the couple grows old together, then falls themselves to die at the same time so that they, too, can be together forever.

When comparing and contrasting the two stories, this passage points out the similarities (young people fall in love, parents don't approve, they die together) and differences (one couple dies young, while the other grows old, one couple dies by their own hands, while the other falls themselves to die together).

**Order of importance:** Ideas are expressed in order of priority (from most important to least important or vice versa).

EX: The first thing I need to do today is finish my article that's due tomorrow morning. Then I need to schedule an interview, after which I need to work on my large project that's due next week.

The projects are listed in order of priority from most important to least. Finishing the article is the top priority, followed by scheduling the interview, then working on the project that's due next week.

**Problem and solution:** The paragraph or passage presents a problem, and then offers a solution to the problem.

EX: Several people in my office have recently come down with the flu. Many of these illnesses could be prevented if people would get the shots before they got the flu and would stay home when they are sick.

The problem is that people in the office are coming down with the flu. The solutions are for people to get flu shots and to stay home when they are sick.

**Sequence:** The paragraph or passage describes the steps in a process in the order that they occur.

EX: When making peanut butter fudge, first mix the sugar and milk, and then boil the mixture in a soft ball stage. Next, add the peanut butter, butter, and vanilla. Then stir and pour the hot fudge into a hardened pan. The sequence is mix, boil, add, stir, and pour.

**Descriptive:** The paragraph or passage provides the reader with a mental picture of what is occurring and what the writer is seeing, hearing, or feeling.

EX: When you walk through my front door, you will see my dining room on the left and my office on the right. As you walk further into the hallway, you will see the kitchen, which opens up to the living room. From the living room, there is a door to the master bedroom on the right and a hallway on the left that leads to a bathroom and the other bedrooms.

This paragraph describes the layout of the author's house.

### Informational Source Comprehension

**Sets of directions:** This portion of the test will require you to follow a series of instructions to arrive at a correct response.

### TEST OF ESSENTIAL ACADEMIC SKILLS

- EX: Start with the number 5.  
+ Add 7. = Subtract 3. = Multiply by 4. = Divide by 6.
- Answers:** A, B, B, C, C

5 + 7 = 12  
12 - 3 = 9  
9 × 4 = 36  
36 ÷ 6 = 6

**Reading labels:** Many products come with labels. This portion of the test will require you to read labels and pick out pertinent information.

According to the label, in which case should a patient inform the doctor?

- A. The patient has kidney disease.
- B. The patient has asthma.
- C. The patient is allergic to penicillin.
- D. The patient has cataracts.

**Answers:** B, because asthma is a breathing problem.

**Printed communications:** In this portion of the test, you will be asked to interpret pertinent information from printed communications, such as ads, letters, and menus.

**Menus:**  
If the shots will be available for free this week to all employees who choose to be vaccinated. Those who work on the first and second floors will get their shots on Tuesday. Those who work on the second and fourth floors will get their shots on Wednesday. The Tuesday shots will be given in the multipurpose room from 1:00 p.m. to 3:00 p.m. The Wednesday shots will be given in the library from 9:00 a.m. to 11:00 a.m.

If you work on the second floor, where and when should you report for your shot?  
**Answers:** Wednesday, in the library, between 9:00 and 11:00 a.m.

**Charts and graphs:** Information is often presented in the form of a chart or graph, so it is important to be able to know how to read them. In this portion of the test, you will be asked to interpret pertinent information from charts and graphs.

EX: In which quarter was the second highest number of sales?  
**Answers:** 2nd quarter

## MATH

### Order of Operations

- Calculations inside parentheses should be performed first.
- Next, do multiplication and division, moving from left to right.
- Then, do addition and subtraction, moving from left to right.

$$5 + (6 - 4) - 13 = 13$$

$$-3 + (24 - 3) = 13$$

$$-3 + 21 = 13 = 13$$

### Addition

- The sum of two positive numbers is a positive number.
- $3 + 4 = 7$
- The sum of two negative numbers is a negative number.
- $-3 + (-4) = -7$

- The sum of one positive number and one negative number can be either a positive or a negative number, depending on which number is greater.
- $-3 + 4 = 1$
- $-4 + 3 = -1$

**Subtraction**

- Subtraction is taking away one number from another.
- $8 - 4 = 4$
- $3 - 8 = -5$
- $-3 + (-8) = -11$

- When subtracting large numbers, line them up so the right sides are aligned vertically.
- $344$
- $-299$
- $-----$
- $45$

### Multiplication

- The product of two positive numbers is a positive number.
- $3 \times 8 = 24$
- The product of two negative numbers is a positive number.
- $(-3) \times (-8) = 24$
- The product of a positive number and a negative number is a negative number.
- $8 \times (-3) = -24$

**Division**

- When multiplying large numbers, line them up so that the right sides are aligned vertically.
- $159$
- $\overline{)423}$
- $42$
- $159$
- $159$
- $0$

- The quotient of two positive numbers is a positive number.
- $8 \div 3 = 3$

- The quotient of two negative numbers is a positive number.
- $(-9) \div (-3) = 3$

**Division**

- The quotient of a positive number and a negative number is a negative number.
- $(-9) \div 3 = -3$
- Long division is used to divide larger numbers.

$$423 \div 28 = 15 \overline{)423}$$

$$28 \overline{)423}$$

$$15 \overline{)423}$$

- The LCD is the smallest number into which two or more denominators will

### Fractions

#### Finding the Least Common Denominator (LCD)

- The LCD is the smallest number into which two or more denominators will

**Nursing Study Guide** Miller Test Prep, 2019-11-10 Miller Test Prep's study guide for the ATI TEAS 6 exam is the solution for students who want to maximize their score and minimize study time. Our study guides are carefully designed to provide only that clear and concise information you need. That's precisely why we put Clear Concise on our cover. The standard for the study guide industry is to throw in the kitchen sink when it comes to making a book meaning you are stuck with hundreds of pages of repetitive information redundant and confusing examples and more practice questions than any person could be expected to work through. This results in students feeling overwhelmed leading to reduced self confidence which leads to lower scores. Instead Miller Test Prep has worked specifically with tutors. Why tutors you ask? Tutors specialize in helping students comprehend information that has already been presented by a teacher. That means they see time and again what students struggle with and what actually works to help them. They specialize in helping students who have previously failed to succeed. We compiled their decades of experience helping students just like you into this study guide so you pass the TEAS 6 first time.
