Stewart,1996 Like the first two editions of A Guide to Literary Criticism and Research this edition is based both on a recognition of a practical need felt in many literature courses and a view of literary study It attempts to meet the practical need by offering upper level students a condensed but adequate guide to the range of modern criticism and to basic methods of research In addition it is a hope that the book will give students a more comprehensive view of literary study by helping them to recognize criticism and research as two closely linked parts of a single process    Lowe's Creative Ideas for Kids' Spaces Lowe's (Firm),2005 Take kid friendly to a whole new level with Lowes Creative Ideas for Kids Spaces based on Lowes highly successful Creative Ideas for Your Home Garden magazine The book goes way beyond the basics providing well thought out design space and storage solutions for kids of all ages Great photos help you plan the best bedrooms study areas and indoor and outside play spaces for the kid in your life    **Roman Law and the Idea of Europe** Kaius Tuori,Heta Björklund,2018-12-27 This book is available as open access through the Bloomsbury Open Access programme and is available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com) It is funded by the European Research Council Roman law is widely considered to be the foundation of European legal culture and an inherent source of unity within European law Roman Law and the Idea of Europe explores the emergence of this idea of Roman law as an idealized shared heritage tracing its origins among exiled German scholars in Britain during the Nazi regime The book follows the spread and influence of these ideas in Europe after the war as part of the larger enthusiasm for European unity It argues that the rise of the importance of Roman law was a reaction against the crisis of jurisprudence in the face of Nazi ideas of racial and ultranationalistic law leading to the establishment of the idea of Europe founded on shared legal principles With contributions from leading academics in the field as well as established younger scholars this volume will be of immense interests to anyone studying intellectual history legal history political history and Roman law in the context of Europe    *Robert Frost and Northern Irish Poetry* Rachel Buxton,2004-05-27 In this incisive and highly readable study Rachel Buxton offers a much needed assessment of Frost s significance for Northern Irish poetry of the past half century Drawing upon a diverse range of previously unpublished archival sources including juvenilia correspondence and drafts of poems Robert Frost and Northern Irish Poetry takes as its particular focus the triangular dynamic of Frost Seamus Heaney and Paul Muldoon Buxton explores the differing strengths which each Irish poet finds in Frost s work while Heaney is drawn primarily to the Frost persona and to the sound of sense it is the studied slyness and wryness of the American s poetry the complicating undertow which Muldoon values This appraisal of Frost in a non American context not only enables a fuller appreciation of Heaney s and Muldoon s poetry but also provides valuable insight into the nature of trans national and trans generational poetic influence Engaging with the politics of Irish American literary connections while providing a subtle analysis of the intertextual relationships between these three key twentieth century poets Robert Frost and Northern Irish Poetry is a pioneering work    The Texture of Internet Santiago

Posteguillo, María José Esteve, M. Lluïsa Gea Valor, 2007 Internet and Information and Communication Technologies represent the largest network of human online communication ever. Language is the material that enables communication to flow in this ever growing digital world of emails, webs, blogs and SMS messages. And language as always transforms itself to meet the rapid demands of this virtual universe. As a result, a myriad of changes have occurred and are continuously occurring in the language of Internet users. The Texture of Internet explores the latest linguistic issues regarding these language transformations focusing on texting, email writing, website texture, new digital genres such as blogs and the potential applications of Internet to specific linguistic professional settings e.g. translation, linguistic research or language teaching. This book will become a key reference for anyone interested in unveiling the intricacies of language use in our technological environment.

Santiago Posteguillo, María José Esteve and Lluïsa Gea Valor have compiled an excellent set of contributions from Spain, United Kingdom and Hong Kong on the analysis of language use in Internet and Information and Communication Technologies. They all are researchers and teachers of Languages for Specific Purposes and Linguistics at Universitat Jaume I in Castellón, Spain. Their experience in Internet language analysis has produced a most valuable volume on the matter.
