Abstract: This paper examines the impact of the 1997-1998 Asian financial crisis on the economic growth of the Asian economies. The results show that the crisis had a significant negative impact on the economic growth of the Asian economies. The impact was more severe for the economies that were more dependent on exports and foreign capital. The paper also discusses the policy responses of the Asian economies to the crisis.

Abstract: This research has been designed to investigate the effect of the use of the Internet on the performance of the employees in the banking sector. The study is based on the data collected from 100 employees of the National Bank of Egypt. The results show that the use of the Internet has a positive effect on the performance of the employees. The study also found that the use of the Internet has a positive effect on the satisfaction of the employees. The study concludes that the use of the Internet is a useful tool for improving the performance of the employees in the banking sector.
