## **Ophthalmology General Practice Classic Reprint:**

**The Ophthalmology of General Practice (Classic Reprint)** Malcolm Langton Hepburn, 2015-07-11 Excerpt from The Ophthalmology of General Practice During the earlier part of my professional life I was engaged for several years in a busy general practice Always interested in Ophthalmology and with a certain amount of special training I endeavoured to turn this knowledge to account but was soon forced to realize my limitations in this respect Unfortunately the patient too often does not recognize such limitations but expects his medical man to be an expert in all branches of medicine and surgery In my difficulties I consulted various well known textbooks on Ophthalmology but in vain They gave me excellent advice as to treatment in cases I was unable to diagnose they appeared to me in fact to proceed on the assumption that I knew more than I really did and in order thoroughly to understand many parts of these works a good deal of preliminary study was necessary the time for which I could ill afford I therefore reluctantly gave up treating diseases of the eye altogether I do not defend that attitude I am convinced indeed that the general practitioner can and ought to undertake treatment and give advice in many ophthalmic cases and even when he does not profess to do so he may occasionally find himself in a position in which he will be forced to express an opinion and initiate some line of treatment About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**The Ophthalmology of General Practice** Malcolm Langton Hepburn, 1923

**Clinical Ophthalmology for the General Practitioner (Classic Reprint)** A. Maitland Ramsay, 2015-07-21 Excerpt from Clinical Ophthalmology for the General Practitioner The author spent ten years in general practice before he specialised in Eye Diseases and that experience has greatly influenced his outlook on Ophthalmology He has written this book which is the outcome of his personal clinical experience for the busy general practitioner and more especially for the country doctor His aim has been to indicate as far as possible the cases which the general practitioner can treat safely on his own responsibility and those in which it is desirable to obtain a consultation with an expert He has tried to bring the treatment of diseases of the eye into line with every day practice and to establish the intimate connection between the eye and other parts of the body A careful study of the eye in many instances gives warning of incipient general disease at a time when treatment offers a reasonable prospect of success and in cases presenting symptoms of advanced cardiac or renal disease an ophthalmoscopic examination may often afford valuable assistance in determining which of the two is the primary disorder The practitioner can also see in the eye the working of a morbid process and can observe its results In pneumococcal ulcer for example he can see how a microbe acts when it invades the tissues

from the outside and in interstitial keratitis and also in iritis he can see the action on the tissues of a micro organism conveyed by the blood In phlyctenular conjunctivitis on the other hand he can observe the important influence of soil on all forms of infection while in chronic glaucoma he has in all probability an example of the degenerative changes in structure which occur as a result of the action of chemical toxins due to disordered metabolism The book is not meant to take the place of a systematic treatise on Ophthalmology It is purely clinical deals with the symptomatology of Eye Diseases and is an attempt to present the subject as the general practitioner meets it in his daily practice Each chapter is so far complete in itself and while that necessarily involves some repetition it is hoped that the doctor will not find the arrangement a disadvantage but rather a help in so far as it may enable him the more quickly to obtain the information he seeks in any particular case The author desires to thank Dr George Hunter for reading the manuscript and for many valuable suggestions and Dr Walter H Kiep for assistance in the preparation of the Glossary and in the description of the plates About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

A Treatise on Ophthalmology for the General Practitioner Adolf Alt, 1893 **A Treatise on Ophthalmology for the General Practitioner** Adolf Alt, 2015-07-21 Excerpt from A Treatise on Ophthalmology for the General Practitioner Second Edition Revised and Enlarged With 140 Illustrations The manner in which the first edition has been received by the public for which it was intended rendered a new edition of this book necessary several years ago I have only now been able to rewrite it Although this second edition is considerably enlarged I have tried to adhere closely to the original plan to make it a useful guide and a help to the general practitioner who may be forced to take care of certain eye diseases That this plan has proven a very acceptable one I have received ample evidence In this second edition I have eliminated the illustrations of eye instruments as every instrument makers catalogue contains them On the other hand I have tried to give particularly a larger number of practical illustrations Those of them which are not my own have as far I was able to find it been credited to their proper source A few of them have been copied and recopied so often in different books that their original source could not be determined Like the first edition this second one is not intended for the specialist That it may be useful to the general practitioner has been and is my desire About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish

Hansell,2015-07-12 Excerpt from A Manual of Clinical Ophthalmology It has been our purpose in the following pages to place before the undergraduate and general practitioner of medicine a brief review of the anatomy physiology refraction and common

diseases of the eye No attempt has been made to treat the subjects exhaustively Simplicity and brevity of statement have not been sacrificed to the mere attractiveness of literary finish We have in a word endeavored in good faith to make the volume conform to the purpose for which it was written by giving it the character directness and practicability of clinical teaching and practice We have been equally and jointly engaged in the composition and arrangement of each and every chapter and for all portions of the book we are therefore equally and jointly responsible About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
