Productivity Planner Compare Customer Service:

The Planning and Scheduling of Production Systems Abdelhakim Artiba, Salah E. Elmaghraby, 1996-12-31 If one accepts the premise that there is no wealth without production whether at the individual or national level one is immediately led to the conclusion that the study of productive systems lies at the forefront of subjects that should be intensively as well as rationally and extensively studied to achieve the desired sustainable growth of society where the latter is defined as growth in the quality of life that does not waste the available resources in the long run Since the end of World War II there has been a remarkable evolution in thinking about production abetted to a large measure by the nascent field of informatics the computer technology and the edifices that have been built around it such as information gathering and dissemination worldwide through communication networks software products peripheral interfaces etc Additionally the very thought processes that guide and motivate studies in production have undergone fundamental changes which verge on being revolutionary thanks to developments in operations research and cybernetics

Solving Large-Scale Production Scheduling and Planning in the Process Industries Georgios M. Kopanos, Luis Puigjaner, 2018-10-01 This book presents a number of efficient techniques for solving large scale production scheduling and planning problems in process industries The main content is supplemented by a wealth of illustrations while case studies on large scale industrial applications ranging from continuous to semicontinuous and batch processes round out the coverage The book examines a variety of complex real world problems and demonstrates solutions that are applicable to scenarios and countries around the world Specifically these case studies include the production planning of the bottling stage of a major brewery at the Cervecer a Cuauht moc Moctezuma Heineken Int in Mexico the production scheduling for multi stage semicontinuous processes at an ice cream production facility of Unilever in the Netherlands the resource constrained production planning for the yogurt production line at the KRI KRI dairy production facility in Greece and the production scheduling for large scale multi stage batch processes at a pharmaceutical batch plant in Germany In addition the book includes industrial inspired case studies of the simultaneous planning of production and logistics operations considering multi site facilities for semicontinuous processes and the integrated planning of production and utility systems in process industries under uncertainty Solving Large scale Production Scheduling and Planning in the Process Industries offers a valuable reference guide for researchers and decision makers alike as it shows readers how to evaluate and improve existing installations and how to design new ones It is also well suited as a textbook for advanced courses on production scheduling and planning in industry as it addresses the optimization of production and logistics operations in real world process industries
