Ludicrous Edward Niedermeyer, 2019-08-20 Tesla is the most exciting car company in a generation but can it live up to the hype Tesla Motors and CEO Elon Musk have become household names shaking up the staid auto industry by creating a set of innovative electric vehicles that have wowed the marketplace and defied conventional wisdom The company s market valuation now rivals that of long established automakers and to many industry observers Tesla is defining the future of the industry But behind the hype Tesla has some serious deficiencies that raise questions about its sky high valuation and even its ultimate survival Tesla s commitment to innovation has led it to reject the careful zero defects approach of other car manufacturers even as it struggles to mass produce cars reliably and with minimal defects While most car manufacturers struggle with the razor thin margins of mid priced sedans Tesla s strategy requires that the Model 3 finally bring it to profitability even as the high priced Roadster and Model S both lost money And Tesla s approach of continually focusing on the future even as commitments and deadlines are repeatedly missed may ultimately test the patience of all but its most devoted fans In Ludicrous journalist and auto industry analyst Edward Niedermeyer lays bare the disconnect between the popular perception of Tesla and the day to day realities of the company and the cars it produces Blending original reporting and never before published insider accounts with savvy industry analysis Niedermeyer tells the story of Tesla as it s never been told before with clear eyes objectivity and insight *Tesla Motors, Inc. Market Analysis and Definition* Dominic Birk, 2015-11-16 Research Paper undergraduate from the year 2015 in the subject Business economics Offline Marketing and Online Marketing grade 1 3 University of applied sciences Cologne language English abstract More than 100 years after the invention of the internal combustion engine incumbent automobile manufacturers are at a crossroads and face nowadays significant industry wide challenges The reliance on the gasoline powered internal combustion engine as the principal automobile powertrain technology is connected with several negative aspects It raises environmental concerns creates dependence among industrialized and developing nations on imported oil and it also exposes consumers to volatile fuel prices All these challenges offer a historic opportunity for companies with innovative electric powertrain technologies to lead the next technological era of the automotive industry Therefore the objective of this assignment is to analyze the market situation of the all electric vehicle manufacturer Tesla Motors Inc and to find out its unique selling proposition The focus will be on the company s domestic market the United States of America Moreover this assignment will only take Tesla s automotive products into consideration Federal Register, 2014 *Contemporary Business* David L.
