Smart Trends in Computing and Communications Tomonobu Senju, Chakchai So-In, Amit Joshi, 2025-11-01 This book gathers high quality papers presented at the Ninth International Conference on Smart Trends in Computing and Communications SmartCom 2025 organised by Global Knowledge Research Foundation GR Foundation from 29 to 31 January 2025 in Pune India. It covers state of the art and emerging topics in information computer communications and effective strategies for their use in engineering and managerial applications. It also explores and discusses the latest technological advances in and future directions for information and knowledge computing and its applications.

Integrated Business Innovation Vijay Pandiarajan, 2025-12-12 Integrated Business Innovation shows how organizations can move beyond the buzz of artificial intelligence particularly generative AI and apply it thoughtfully to solve real world business problems. While tools like

ChatGPT and other large language models offer accessible and intuitive power many companies struggle to extract lasting value because they fail to clearly define the problems they are trying to solve. This book addresses that gap by integrating the principles of design thinking with AI and other fourth industrial age technology capabilities offering a structured approach to identifying business challenges and developing innovative customer centered solutions. Across 12 chapters the book blends foundational insights with applications across industries such as healthcare, manufacturing, retail, government and education. With a wide array of illustrative mini cases woven throughout the book including five expanded case studies in Part III, readers will learn how to recognize strategic opportunities, navigate implementation challenges and unlock measurable business impact using AI. This book is a vital new resource for undergraduates, postgraduates and professionals on executive education courses and will also appeal to leaders, practitioners and consultants equipping readers with the mindset and methods needed to innovate with purpose in an era of intelligent systems.
