Wiśniewski, Marta Borowska-Stefańska**

Ev Charger Guide Clearance:

ADA in Details Janis Kent, 2023-08-08 ADA IN DETAILS Comprehensive visual interpretation of the ADA Standards for accessible design expanded with 50% more content and comparisons with two additional codes and standards ADA in Details Second Edition provides a visual interpretation of the Americans with Disabilities Act Standards ADAS A comprehensive guide to incorporating accessibility thru bullet points and visual details the book is a convenient go to reference of pertinent scoping technical requirements and sourcing information It highlights typical requirements for new projects and alterations and also covers specialty uses such as assembly areas kitchens site elements hospitality retail restaurants and recreational facilities This revised edition now integrates the 2010 ADA Standards with the 2021 International Building Code IBC the 2022 California Building Code CBC and the 2017 ICC A117.1 Standard for Accessible and Usable Buildings and Facilities The book uses color to differentiate between the different standards and codes and now includes photos for real world examples ADA in Details Second Edition includes Color coded comparisons between the ADA IBC CBC and ICC A117.1 which help in understanding how to navigate thru the different requirements in accessibility Visual details and bullet point specifications for both newly constructed and existing facilities are color coded to identify which requirements apply Solutions for accessible routes site features architectural elements restrooms electric vehicle charging stations and more including public multi family housing dwelling units Discussions and notes on various topics to be considered in new and existing facilities due to how building codes have evolved from preceding cycles Clear explanation and illustrations that synthesize various federal regulations including limited portions of ABA and HUD's Deeming Notice among other regulations Architects and designers plan checkers and inspectors along with facility managers and contractors as well as everyone else involved in the built environment can turn to ADA in Details as an authoritative resource to understand accessibility compliance for places of public accommodation commercial facilities and public facilities [Transport and Climate Change](#) Maxim A.

Dulebenets, Szymon Wiśniewski, Marta Borowska-Stefańska, 2025-12-21 This book surveys the impact of the transportation sector on accelerated climate change and the main solutions that have been proposed over the years to address the problem The examples of these solutions include but are not limited to emission reduction targets electrification of the transportation sector elimination of vehicles with traditional fossil fuel engines renewable energy sources and introduction of emission control measures Some of these solutions are quite difficult to implement due to the associated costs Certain approaches may seem rather ambitious and need more thorough assessment Urban areas are substantially impacted by greenhouse gas emissions produced by the transportation sector Global warming and rapid urbanization are all contributing factors that heighten the likelihood of compound extreme weather events As climate change events become more frequent and intense communities around the world become increasingly vulnerable due to their everyday dependence on transportation systems The book presents innovative mitigation and adaptation strategies that reduce the future effects of climate change resulting

from the transportation sector and promote adaptive transport systems to minimize human as well as economic losses caused by climate change The new strategies are inspired by intelligent supply chain management solutions transportation network operational alternatives and sustainability driven interdisciplinary approaches The book emphasizes low risk and high payoff solutions
