Le genre de musique que j'aime le plus est la musique pop. Cependant, j'aime aussi la musique hip hop. Last weekend I went to a concert, et j'ai vu mon chanteur préféré. Mon chanteur préféré qui s'appelle Taylor Swift. Elle est très talentueuse. Tonight, I am going to listen to my favourite songs in my bedroom. I love music because it relaxes me.

A Theory of Translation for Musical Texts from German Into English Lloyd Alvin Zurbrigg, 1963

Song and Significance , 2005-01-01 Vocal translation is an old art but the interpretive

feeling skill and craft have expanded into a relatively new area in translation studies Vocal translation is the translation of the poetic discourse in the hybrid art of the musicopoetic or poeticomusical forms shapes and skills This symbiotic construct harmonizes together the conflicting roles of music and language in face to face singing performances The artist sings in an accurate but free flow but sung in a language different from the original lyrics Vocal translation is a living together community of composer and poet and translator they work together though separately in time and place through the structure and meaning of the vocalized verbal language The meaning of the songs is influenced by the elements of musical expression melody impulse pitch duration loudness timbre and dynamics each of which is governed by its own rules and emotions The movement of the lyrics is an essential and meaningful attribute of the musical rhythms pauses pitches stresses and articulations of the entire songs The presence of the original and translated song structures its sounds senses and gestures to suggest semiotic meaningfulness In opera folksong hymn and art song as well as in operetta musical song and popular song we have musical genres allied to a libretto with lyrical text A libretto is a linguistic text which is a pre existing work of art but is subordinated to the musical text The essays in *Song and Significance Virtues and Vices of Vocal Translation* provide interpretive models for the juxtaposition of different orders of the singing sign events in different languages extending the meaning and range of the musical and literary concepts and putting the mixed signs to a true and false test

Translation and Music Sebnem Susam-Sarajeva, 2016-04-08 Popular and multimodal forms of cultural products are becoming increasingly visible within translation studies research Interest in translation and music however has so far been relatively limited mainly because translation of musical material has been considered somewhat outside the limits of translation studies as traditionally conceived Difficulties associated with issues such as the musicality of lyrics the fuzzy boundaries between translation adaptation and rewriting and the pervasiveness of covert or unacknowledged translations of musical elements in a variety of settings have generally limited the research in this area to overt and canonized translations such as those done for the opera Yet the intersection of translation and music can be a fascinating field to explore and one which can enrich our understanding of what translation is and how it relates to other forms of expression This special issue is an attempt to open up the field of translation and music to a wider audience within translation studies and to an extent within musicology and cultural studies The volume includes contributions from a wide range of musical genres and languages from those that investigate translation and code switching in North African rap and rai and the intertextual and intersemiotic translations revolving around Mahler's lieder in Chinese to the appropriation and after life of Kurdish folk songs in Turkish and the emergence of rock n roll in Russian Other papers examine the reception of Anglo American stage musicals and musical films in Italy and Spain the concept of singability with examples from Scandinavian languages and the French dubbing of musical episodes of TV series The volume also offers an annotated bibliography on opera translation and a general bibliography on translation and music
