Conductor Sir John Goulden, 2015-02-28 Among the major changes that swept through the music industry during the mid nineteenth century was how musical performances were managed and directed From a loose control shared between the violin leader musical director and maestro al cembalo to a system of tight and unified control under a professional conductor manager This process brought with it not only baton conducting in its modern form but also higher standards a new orchestral lay out and a more focused rehearsal regime The key figure in this process was Michael Costa whose uniquely powerful position in the operatic symphonic and choral worlds provide a fascinating insight into the politics and changing

aesthetics of the Victorian musical landscape **Beyond the Score** Nicholas Cook, 2013 In *Beyond the Score* Music as Performance author Nicholas Cook supplants the traditional musicological notion of music as writing asserting instead that it is as performance that music is loved understood and consumed This book reconceives music as an activity through which meaning is generated in real time as Cook rethinks familiar assumptions and develops new approaches Focusing primarily but not exclusively on the Western art tradition Cook explores perspectives that range from close listening to computational analysis from ethnography to the study of recordings and from the social relations constructed through performance to the performing and listening body In doing so he reveals not only that the notion of music as text has hampered academic understanding of music but also that it has inhibited performance practices placing them in a textualist straightjacket *Beyond the Score* has a strong historical emphasis touching on broad developments in twentieth century performance style and setting them into their larger cultural context Cook also investigates the relationship between recordings and performance arguing that we do not experience recordings as mere reproductions of a performance but as performances in their own right *Beyond the Score* is a comprehensive exploration of new approaches and methods for the study of music as performance and will be an invaluable addition to the libraries of music scholars including musicologists music theorists and music cognition scholars everywhere *Musicians in the Making* Rink, Helena Gaunt, Aaron Williamon, 2017-01 **The Ethnography of Musical Performance** Norma McLeod, Marcia Herndon, 1980 Library of Congress Subject Headings Library of Congress. Meyer, 1998-08-14 Methods for overcoming pre performance jitters *Notes from the Green Room* explains the causes of musical performance anxiety and suggests methods for dealing with it effectively The authors show how proper preparation as well as techniques such as learning experiments relaxation training tension management and graded exposure to groups of various sizes can relieve the compulsion that often accompanies an individual's performance An essential resource for musicians at any level *Musical Topics and Musical Performance* Julian Hellaby, 2023-01-31 The principal purpose of topics in musicology has been to identify meaning bearing units within a musical composition that would have been understood by contemporary audiences and therefore also by later receivers albeit in a different context and with a need for historically aware listening Since Leonard Ratner 1980 introduced the idea of topics his relatively simple ideas have been expanded and developed by a number of distinguished authors Topic theory has now become a well established branch of musicology often embracing semiotics but its relationship to performance has received less attention *Musical Topics and Musical Performance* thus focuses on the interface of theory and practice and investigates how an appreciation of topical presence in a work may prompt interpretative thoughts for a potential performer as well as how performers have responded to such a presence in practice The chapters focus on music from the nineteenth twentieth and twenty first centuries with case studies drawn from composers as diverse as Beethoven Scriabin and Peter E. T. v. s Using both scores and recordings the book presents a variety of

original and innovative perspectives on the subject from a range of distinguished authors and addresses a neglected area of musicology and musical performance **Musical performance and reception** , *Musical times and singing-class circular* ,1889 **Musical News** ,1893 Monthly musical record ,1885 Johann Sebastian Bach, his work and influence on the music of Germany, tr. by C.
