How to Be a Capitalist Without Any Capital Nathan Latka, 2019-03-07 You don't need to be university educated have money be creative or even have an idea to get rich You just need to be willing to break the rules How to be a Capitalist Without Any Capital will teach you how to be a modern opportunist investor entrepreneur or side hustler by breaking these four golden rules of the old guard 1 Focus on one skill Wrong Don't cultivate one great skill to get ahead In today's business world success goes to the multitaskers 2 Be unique Wrong The way to get rich is not by launching a new idea but by aggressively copying others and then adding your own twist 3 Focus on one goal Wrong Focus instead on creating a system to produce the outcome you want not just once but over and over again 4 Appeal to the masses Wrong The masses are broke 4k average net worth in America Let others cut a trail through the jungle so you can peacefully walk in and capitalize on their hard work By rejecting these defunct rules and following Nathan Latka's unconventional path you can copy other people's ideas shamelessly bootstrap a start up with almost no funding invest in small local businesses for huge payoffs and reap all the benefits

The Machine Age Robert Skidelsky, 2023-11-02 A sweeping history of and meditation on humanity's relationship with machines showing how we got here and what happens next Faith in technological fixes for our problems is waning Automation which promised relief from toil has reactivated the long standing fear of job redundancy Information technology meant to liberate us from traditional authority is placing unprecedented powers of surveillance and control in the hands of a purely secular Big Brother And for the first time artificial intelligence threatens anthropogenic disaster disaster caused by our own activities Scientists join imaginative writers in warning us of the fate of Icarus whose wings melted because he flew too close to the sun This book tells the story of our fractured relationship with machines from humanity's first tools down to the present and into the future It raises the crucial question of why some parts of the world developed a machine civilisation and not others and traces the interactions between capitalism and technology and between science and religion in the making of the modern world Taking in the peaks of philosophy and triumphs of science the

foundation of economics and speculations of fiction Robert Skidelsky embarks on a bold intellectual journey through the evolution of our understanding of technology and what this means for our lives and politics Unless we understand technology as a system of ideas rather than as a necessity he writes we will be powerless to choose which technology is best suited to our needs and purposes
