Jaffé,2011-09-14 In this groundbreaking book Bill Price and David Jaffe offer a new game changing approach showing how managers are taking the wrong path and are using the wrong metrics to measure customer service Customer service they assert is only needed when a company does something wrong eliminating the need for service is the best way to satisfy customers To be successful companies need to treat service as a data point of dysfunction and figure what they need to do to eliminate the demand The Best Service Is No Service outlines these seven principles to deliver the best service that ultimately leads to no service Eliminate dumb contacts Create engaging self service Be proactive Make it easy to contact your company Own the actions across the company Listen and act Deliver great service experiences *Pay Attention!* Ann Thomas,Jill Applegate,2010-05-24 Make customer feedback work for your business Customers are speaking loud and clear through a myriad of mediums Evidence shows that customers will no longer stand for the hurried and complacent service that has become the norm They are looking for a positive memorable experience Organizations that provide that level of service will earn their loyalty Customers base their decisions on nothing more than a positive or negative review of your product and or service Pay Attention paves the way Your company wins when you Understand Customer Expectations Embrace and implement The RATER Factors Define who you are and what you offer Become E T D B W Easy To Do Business With Connect with your audience in all mediums React appropriately and respond immediately to customer feedback Recover sincerely when things go wrong All you need is to Pay Attention **Simply Better** Patrick Barwise,Sean Meehan,2004-08-12 Most executives believe that winning and keeping customers requires offering something unique But as physical products are seen as increasingly hard to differentiate companies resort to branding gimmicks and thinking outside the box Meanwhile customers are less satisfied than they were a decade ago Patrick Barwise and Se n Meehan argue that most companies have taken differentiation so far that they ve left their customers behind Customers don t want bells and whistles and don t care about trivial differences between brands What they really want are quality products reliable services and fair value for money Yet most companies consistently fail to meet these basic customer needs Simply Better is a no nonsense back to basics manifesto for today s businesses Barwise and Meehan argue that successful differentiation lies not in unique selling propositions but in generic category benefits such as good service on time delivery and quality products that any company can provide The key is to deliver these consistently better than competitors Illustrating this customer focused differentiation through vivid examples of companies including Toyota P G Hilti Tesco and Ryanair Simply Better outlines an actionable framework managers can use to Understand what customers really value and why they buy the brands they do Discover basic unmet needs ripe for reliable solutions Channel customer dissatisfaction into performance improvements Balance in the box thinking in strategy and innovation with out of the box thinking in advertising and communications Create a learning culture that continuously responds to changing customer needs While being unique might be exciting and appealing it doesn t drive business success Simply Better shows how meeting and exceeding the most ordinary of customer expectations can lead to
