Movie Analytics Dominique Haughton, Mark-David McLaughlin, Kevin Mentzer, Changan Zhang, 2015-10-05 Movies will never be the same after you learn how to analyze movie data including key data mining text mining and social network analytics concepts. These techniques may then be used in endless other contexts. In the movie application this topic opens a lively discussion on the current developments in big data from a data science perspective. This book is geared to applied researchers and practitioners and is meant to be practical. The reader will take a hands on approach running text mining and social network analyses with software packages covered in the book. These include R, SAS, Knime, Pajek and Gephi. The nitty gritty of how to build datasets needed for the various analyses will be discussed as well. This includes how to extract suitable Twitter data and create a co starring network from the IMDB database given memory constraints. The authors also guide the reader through an analysis of movie attendance data via a realistic dataset from France.

Research in Media Promotion

Susan Tyler Eastman, 2000-08-01 Eastman has assembled this exemplary volume to spotlight media promotion and to examine current research on the promotion of television and radio programs. The studies included here explore various types of promotion and use widely differing methods and approaches providing a comprehensive overview of promotion research activities. Chapters include extensive literature reviews, original research and discussion of research questions for subsequent study. *Research in Media Promotion* serves as a benchmark for the current state of promotion research and theory and establishes the role of promotion as a primary factor affecting audience size. Appropriate for coursework and study in programming, marketing, research methods, management and industry processes and practices, this volume offers agenda items for future study and is certain to stimulate new research ideas.
