Move Putting Americas Infrastructure Back In The Lead:

Leading Transformative Change: A CEO's Guide to Managing Organizational Transformation with a Focus on Hybrid Workforces and Employee Mental Health Dr. Nancy Morehouse, 2024-12-21 In *Leading Transformative Change A CEO's Guide to Managing Organizational Transformation with a Focus on Hybrid Workforces and Employee Mental Health* readers gain a practical empathetic roadmap for guiding their organizations through today's shifting workplace landscapes. This guide highlights the core principles of human centered design, robust communication, and mental well being, offering CEOs and senior leaders the tools they need to create thriving hybrid cultures. Through actionable strategies, real world case studies, and evidence based insights, this book empowers leaders to navigate complexity, inspire trust, and sustain meaningful change while keeping people at the heart of every decision.

Intelligent Transportation and Planning: Breakthroughs in Research and Practice Management Association, Information Resources, 2018-02-02 From driverless cars to vehicular networks, recent technological advances are being employed to increase road safety and improve driver satisfaction. As with any newly developed technology, researchers must take care to address all concerns, limitations, and dangers before widespread public adoption. *Intelligent Transportation and Planning Breakthroughs in Research and Practice* is an innovative reference source for the latest academic material on the applications, management, and planning of intelligent transportation systems. Highlighting a range of topics such as automatic control, infrastructure systems, and system architecture, this publication is ideally designed for engineers, academics, professionals, and practitioners actively involved in the transportation planning sector.

Transit Oriented Development in West African Cities Timothy Nubi, Taibat Lawanson, Basirat Oyalowo, 2024-08-12 The book addresses conceptual issues around urban transportation policy and practice in selected west African cities. It highlights the institutional, socio economic, and infrastructural barriers of transit oriented development in West Africa. Through a series of case studies, the chapters present how transport governance systems affect housing, land infrastructure development, urbanization dynamics, construction, and the urban poor. The chapters in this book are written by authors from multi disciplinary backgrounds, including architecture, construction management, real estate, urban planning, and public health, and are members of the African Research Network on Urbanization and Habitable Cities, a research network supported by the UKRI African Research Universities Alliance Capacity Building Programme. By providing a solid empirical portrait based on lived and research experience, this book will be a great resource to students, academics, and policy makers in transport, urban planning, and development policy, as well as social scientists.

Emerging Challenges and Opportunities of High Speed Rail Development on Business and Society Selladurai, Raj, Lee, Peggy Daniels, VandeWerken, George, 2016-05-04 The increasingly busy lives of people in modern society cause a high dependence on the transportation sector. Traffic congestion, road maintenance, and a myriad of other problems have led stakeholders to seriously examine alternatives to traditional road traveling. *Emerging Challenges and Opportunities of High Speed Rail Development on Business and Society*

is an authoritative reference source on the promising aspects of high speed railway transportation to supplement road travel Highlighting empirical research implementations plans and future opportunities this book is ideally designed for government officials researchers upper level students and technology developers working in the field of transportation [Stronger](#)
