*Multidisciplinary Practices and Partnerships* Stephen J. McGarry, 2002 Explains the various types of MDPs where they are permitted and the advantages and disadvantages of each. This book includes coverage of ABA and CPA rules on professional independence, conflicts of interest, confidentiality, and other critical issues. Multidisciplinary Practice Gary A. Munneke, Ann L. MacNaughton, 2001 The trend toward the Multidisciplinary Law Practice MDP is revolutionizing the way legal firms are preparing to deliver their services. The MDP concept will affect every law practice, large or small. Even lawyers working outside the private practice arena will find their lives altered by the changes now starting to take place. This work offers an examination of the MDP initiative from every angle, including multiple appendices including an issues list and MDP hypotheticals and models. **Lawyer's Practice and Ideals: A Comparative View** John Barcelbo, Roger C. Cramton, 1999-09-15 As the process of internationalization accelerates, comparative law scholars inevitably focus on the adaptation of legal cultures to new realities. It is particularly important in the global world order as it stands today to understand as best we can the inner workings of two groups of lawyers: those in the United States and those in the major European countries. In which ways do the two groups understand each other and where do they go their separate ways? And what are the implications for the legal profession and its beneficiaries of their cultural and ideological differences? At a symposium held in Paris, twelve scholars from Europe and the United States met to investigate and clarify these issues under two intimately related rubrics: realities and trends on the one hand and ethics rules and professional ideologies on the other. The participants have updated their original papers for this publication. In the course of their discussion, they reveal which cultural realities persist and are likely to remain and which trends are broadening the common ground on which lawyers act in both cultures. The result is the sharpest delineation we have yet of this vital concern of current comparative law. Emory International Law Review, 1999
