Moving Forward Life Changing Short Stories And Metaphors For Hypnosis Hypnotherapy Nlp:

Moving Forward, Life Changing Short Stories and Metaphors for Hypnosis, Hypnotherapy & Nlp John Smale, 2010 When you read this book either to yourself other people or to clients you will find insights into problems This allows movement away from difficulties towards finding solutions and implementing them The decision to look at life from new perspectives gives the chance to earn your true value in the world and to profit from constructive change Rather than being held back by old beliefs and attitudes the reader moves into a new way of thinking a new way of acting and a new way of life Some of the metaphors funny some are dark They tell tales of abuse and the nasty nature that some people have However the darkest hour is just before dawn The darker stories offer hope to the readers who will identify with them The outcome is that of moving away from the past into a brighter future Just because bad stuff has happened before there is no need to assume that the victim is cursed The end of every old story is justice for the wronged and the chastisement of the perpetrator So it is and will be These stories and metaphors help the reader to climb out of the mud that holds them back and into a place where we can be fulfilled and happy Taking and acting on decisions is paramount to success By moving forward now you invest in a brighter future
