**Fang Scalp Acupuncture An Introductory Manual for TCM Students** Zuo Yu Zhou,2024-08 Fang Scalp Acupuncture is an award winning acupuncture microsystem that integrates Traditional Chinese Medicine with neuroscience Developed in the 1960s by Dr Fang Yun Peng and his son Dr Fang Ben Zheng the Fang microsystem allows a Traditional Chinese Medicine practitioner to adjust the body s Qi flow directly through the central nervous system It yields quick results and is proven to be effective on a broad spectrum of acute and chronic diseases Dr Ching Ching Chi PhD L Ac studied extensively with Dr Fang Ben Zheng beginning in 2007 She has since dedicated her clinical practice to the application of the Fang microsystem in accordance with Traditional Chinese Medicine principles which she calls her Unified Principles UP Method Now in efforts to propagate this tool she has begun to standardize and teach the Fang microsystem as she understands and applies it in her clinic every day This is the first book about Fang Scalp

Acupuncture in English and the first book to present the Fang microsystem as never seen before with clear images and descriptions of the Fang microsystem treatment points and patterns It introduces the Fang microsystem theory and teaches the fundamentals for the successful application by any Traditional Chinese Medicine student or practitioner Clinical Handbook of Yamamoto New Scalp Acupuncture David Bomzon, 2020-06-18 Practical manual of the principles and practice of Yamamoto New Scalp Acupuncture Written by an acupuncturist for acupuncturists physical therapists and chiropractors the book reconciles Yamamoto's theoretical needling points with actual needling points **Functional Scalp Acupuncture** Anne Angelone, Anne Angelone L Ac, 2019-11-14 The Functional Scalp Acupuncture FSA model promotes the application of neuroscience and evidenced based acupuncture research to the treatment of chronic pain depression anxiety schizophrenia autism spectrum disorder ASD attention deficit hyperactivity disorder ADHD obsessive compulsive disorder OCD autoimmune and Alzheimer's disease Neuroscience has dramatically increased our knowledge and understanding of the underlying dysfunction in each of these conditions As we shall soon discover each disorder has a well established neurobiological signature that can give us clues as to where the imbalances lie and how to improve functional brain integration In recent years developments in neuroscience have offered significant breakthroughs in understanding the brain chemistry and neurobiology behind the symptoms associated with neuropsychiatric neurobehavioral neurodegenerative and autoimmune disorders From a neurobiological perspective all of these disorders stem from a functionally disconnected and therefore asynchronous brain Notably in all of these disorders the root cause can in part be explained by the lack of top down control from the prefrontal cortex to subcortical limbic structures This setup creates asynchrony where brain structures networks and regions can become functionally disconnected and out of sync with each other As a result of this disconnection learning problems memory issues emotional immune sensory social and behavioral dysfunctions are bound to result In the Functional Scalp Acupuncture model an asynchronous brain is responsible for many of the physical mental emotional and social difficulties related to the whole spectrum of neurobehavioral neuropsychiatric neurodegenerative and autoimmune conditions We can consider that they are all disorders related to cognitive sensory motor and emotional regulation where the rhythm and timing are out of sync in one or more parts of the brain They all are also disorders where inflammation is rampant Contemporary acupuncturists need a comprehensive program that targets the primary problems functional disconnection and inflammation Lack of functional connectivity plus inflammation in our patient's brains results in many of the symptoms that present in our clinics In light of what we now know we can start to understand all disorders as asynchronous brain structures and networks that are churning out the neurophysiology that creates symptoms The research can help us to become more astute at identifying symptoms that signify brain asynchrony in specific receiving and processing centers e.g. from the midbrain the thalamus the basal ganglia and somatosensory cortex to limbic sensory and cognitive integration areas such as the insular cortex dorsolateral prefrontal cortex ventromedial PFC and the orbitofrontal cortex It

can also help clue us in to brain network involvement neurotransmitter imbalances and synaptic impairment In the FSA model decreasing inflammation and improving the function of the prefrontal cortex the somatosensory cortex the motor cortex and the association cortices as well as supporting functional connectivity to limbic structures leads to brain integration and resolution of symptoms The revolutionary import is that we can now consider depression anxiety schizophrenia autism ADHD OCD autoimmune and Alzheimer s disease as brain asynchrony in need of balance      *Chinese Scalp Acupuncture* Jason Jishun Hao,Linda Lingzhi Hao,2011 This new book could make a difference in the life of a patient when no other therapies will help The authors who have a combined 60 years of experience using Chinese scalp acupuncture have composed a thorough clinic manual for practical clinical applications of scalp acupuncture to treat patients who suffer from seriously debilitating conditions such as the sequelae of stroke phantom limb pain PTSD Meniere s syndrome multiple sclerosis herpes zoster seizures essential tremor and Parkinson s Disease The authors begin with an introduction to the neuroanatomy and neurophysiology of the brain and scalp for non Western medical practitioners They review Chinese medical theories supporting the use of scalp acupuncture provide thorough explanations of area locations and uses and include details of needling technique specific to scalp acupuncture There are over 40 case studies with treatment details as well as excellent illustrations of each treatment area      **Scalp Acupuncture and Clinical Cases** Shunfa Jiao,1997-01-01
