Health in the Anthropocene Katharine Zywert,Stephen Quilley,2020-02-04 How will the ecological and economic crises of the 21st century transform health systems and human wellbeing Routledge Handbook of Environmental Impact

Assessment Kevin Hanna,2022-04-10 Globally environmental impact assessment EIA is one of the most enduring and influential environmental management tools This handbook provides readers with a strong foundation for understanding the practice of EIA by outlining the different types of assessment while also providing a guide to best practice This collection deploys a research and practice based approach to the subject delivering an overview of EIA as an essential and practical tool of environmental protection planning and policy To best understand the most pertinent issues and challenges surrounding EIA today this volume draws together prominent researchers practitioners and young scholars who share their work and knowledge to cover two key parts The first part introduces EIA processes and best practices through analytical and critical chapters on the stages elements of the EIA process and different components and forms of assessment These provide examples that cover a wide range of assessment methods and cross cutting issues including cumulative effects assessment social impact assessment Indigenous led assessment risk assessment climate change and gender based assessment The second part provides jurisdictional reviews of the European Union the US National Environmental Policy Act recent assessment reforms in Canada EIA in developing economies and the EIA context in England By providing a concise outline of the process followed by in depth illustrations of approaches methods and tools and case studies this book will be essential for students scholars and practitioners of environmental impact assessment

Population Medicine and Health Economics Simiao Chen,An Pan,Till Bärnighausen,Chen Wang ,Qiushi Chen,2024-10-04 Population medicine is an emerging medical discipline that aims to maximize aggregate and long term population health by mobilizing accessible resources through its five care responsibilities prevention diagnosis control treatment and recovery integrating and applying knowledge principles and technologies of modern medicine and related disciplines coordinating individual health behaviors and collective health actions and serving as the medical foundation of public health practices Population health economics is important in population medicine and public health Since resources are limited in order to maximize the aggregate and long term population health benefit we must produce and allocate resources in an effective and efficient manner The value of healthcare interventions are often underestimated and health resources are mostly insufficient The broader social and economic values of healthcare interventions are frequently ignored It is important that we distribute health resources wisely and maximize efficiencies at all three levels micro meso and macro levels Thus this Research Topic focuses on how population health economics as both a key method and a value can help population medicine practitioners to provide better and more efficient care to the population they serve Towards a Political Economy of Resource-dependent Regions Greg Halseth,Laura Ryser,2017-08-18 This book advances our understanding of resource dependent regions in developed

economies in the 21st Century It explores how rural and small town places are working to find success in a new economy marked by demographic economic social cultural political and environmental change How are we to understand the changes and transformations working through communities and economies Where are the trajectories of change leading these resource dependent places and regions Drawing upon examples from Canada USA UK Australia New Zealand and the Nordic countries these and other questions are explored and addressed by constructing a critical political economy framework of resource hinterland transition Towards a Political Economy of Resource Dependent Regions is a key resource for students and researchers in geography rural and industrial sociology economics environmental studies political science regional studies and planning as well as policy makers those in industry and the private sector and local and regional development practitioners **Perspectives for Marine Energy in the Mediterranean Area** Simone Bastianoni,Markos Damasiotis,Caterina Praticò,Riccardo Maria Pulselli,2021-01-25
