boulevard as well as public parks and the earliest sidewalks and bridges without houses. Venues opened for urban entertainment of all kinds from opera and ballet to a pastime invented in Paris: recreational shopping. Parisians enjoyed the earliest public transportation and street lighting, and Paris became Europe's first great walking city. A century of planned development made Paris both beautiful and exciting. It gave people reasons to be out in public as never before and as nowhere else. And it gave Paris its modern identity as a place that people dreamed of seeing. By 1700, Paris had become the capital that would revolutionize our conception of the city and of urban life.
