Mathematics Beyond the Classroom Selçuk Alkan, *A Close Look at Close Reading* Barbara Moss, Diane Lapp, Maria Grant, Kelly Johnson, 2015-05-21 The Common Core State Standards have put close reading in the spotlight as never before. While middle and high school teachers want and need students to connect with, analyze, and learn from both literary and informational texts, many are unsure how to foster the skills students must have in order to develop deep and nuanced understanding of complicated content. Is there a process to follow? How is close reading different from shared reading and other common literacy practices? How do you prepare students to have their ability to analyze complex texts measured by high stakes assessments? And how do you fit close reading instruction and experiences into an already crowded curriculum? Literacy experts Barbara Moss, Diane Lapp, Maria Grant, and Kelly Johnson answer these questions and more as they explain how to teach middle and high school students to be close readers, how to make close reading a habit of practice across the content areas, and why doing so will build content knowledge. Informed by the authors' extensive field experience and enriched by dozens of real-life scenarios and downloadable tools and templates, this book explores text complexity and how to determine if a particular text is right for your learning purposes and your students. The process and purpose of close reading, with an emphasis on its role in developing the 21st-century thinking, speaking, and writing skills essential for academic communication and college and career readiness. How to plan, teach, and manage close reading sessions across the academic disciplines, including the kinds of questions to ask, texts to use, and supports to provide. How to assess close reading and help all students, regardless of linguistic, cultural, or academic background, connect deeply with what they read and derive meaning from complex texts. Equipping students with the tools and process of close reading sets them on the road to becoming analytical and critical thinkers and empowered and independent learners. In this comprehensive resource, you'll find everything you need to start their journey.

Subjects Matter Harvey Daniels, Steven Zemelman, 2004 Lively, practical, and irreverent, *Subjects Matter* points the way to activities and materials that energize content and engage students across all subject areas.

The Crucible - Literature Kit Gr. 9-12 Chad Ibbotson, 2016-12-14 Step back in time to 1692 in Salem, Massachusetts, and experience the corruption and ignorance of the Salem witch trials. Our resource is easily customizable, allowing educators to pick and choose elements to meet their needs. Focus on vocabulary comprehension by matching words from the text to their definitions. Test student understanding of the play by asking students to fill in the dialog with the missing words from the scene. Expand critical thinking skills with short-answer opinion questions. Supplement an existing unit with in-depth writing tasks such as evaluating Reverend Hale's waning confidence in witchcraft that takes place throughout the play. Aligned to your State Standards and written to Bloom's Taxonomy, additional crossword, word search, comprehension quiz, and answer key are also included.

About the Novel *The Crucible* is the award-winning play written by Arthur Miller about the Salem witch trials of 1692. One night in Salem, Massachusetts, a group of girls are caught dancing in the woods by

Reverend Parris His own daughter falls into a coma soon after and the town is ablaze with talks of witchcraft The Reverend sends for Reverend Hale to examine the girl for witchcraft Hale concludes that the town of Salem is in fact engulfed in witchcraft as one by one the girls accuse other townspeople of communing with the devil A trial ensues causing those accused to either deny these allegations or confess thus accusing someone else This cycle finally culminates in the death of several innocent townsfolk The Crucible is a historical dramatization of true events that show reputation is more important than admitting ignorance
