industry They created the triangle symbol to make us think plastics will recycle even though that can't easily be done Manufacturers choose not to invest in recycled packaging and materials Virgin materials mined from Earth are cheaper and often subsidized Technology exists to eliminate most of the greenhouse gas emissions they cause It's time to fight for the truth and take matters into our own hands What we buy and how it's made affects how well reduce reuse and recycle works Using the power of our voices and wallets we can make corporations change how they do business They answer to us the people who buy their products and invest in their stock We can insist they take responsibility for the damage they cause We have the power to fight climate change at home and in our cities I don't know about you but I'm not ready to leave the health and well being of my family in the hands of people who I hope will figure this mess out We all need to change for the better of our planet and our lives There are alternatives to buying disposable goods and packaging Buy durable goods and reusable packaging to save money and the planet Reduce and reuse packaging First eliminate plastic shopping bags We can do things differently to change our eating and buying habits A lot of trash comes with convenience dining like packaged and fast foods Buying used products reduces wasted energy materials and water It's time we use our buying power and our votes to change for the better Waste of anything food energy goods needs to be eliminated Elect representatives who put people before corporations Your voice can create change Check out HowExpert Guide to Recycling to learn how to recycle eliminate disposables reduce waste pollution conserve resources save energy and protect the environment About the Author Jen Thilman has been a recycling and zero waste volunteer for decades which is how she learned that recycling doesn't always work She has spent years working in green energy technology and studies sustainable living while she strives for it in her own life Jen completed training from the Climate Reality Project in June of 2022 Marrying her love for writing and the environment Jen writes blogs about how to buy sustainable products recycle everyday items and save the planet Jen lives with her wirehaired terrier Teddy Bear in the San Francisco Bay Area She writes non fiction and fiction in many genres and formats from short stories to poetry as well as novels that include a post climate apocalypse dystopian series HowExpert publishes how to guides on all topics from A to Z by everyday experts [The Devil's Footprint](#) Victor O'Reilly, 1998 Victor O'Reilly is back with his most explosive novel ever Hugo Fitzduane the hero of Games of the Hangman and Rules of the Hunt returns to face the Hangman's vengeful lover in a full scale assault on American soil First time in paperback A blockbuster follow up to Victor O'Reilly's smash hits New York Times bestsellers Games of the Hangman and Rules of the Hunt [My Footprint](#) Jeff Garlin, 2010-04-03 Jeff Garlin shares his hysterical and eye opening journey to reduce his waistline and his carbon footprint during the production of the seventh season of HBO's Curb Your Enthusiasm Jeff Garlin has dedicated the filming of an entire season of Curb Your Enthusiasm to completely making over his lifestyle in two major ways by lightening his physical and his ecological footprints After many false starts he believes that writing a book about the experiment is the only possible way to help him lose weight and go green The hardest part of the endeavor is overcoming his food addiction

especially when craft service has a constant buffet of everything delicious you could imagine on set In addition to cutting calories Jeff accidentally falls into a love affair with pilates sweats with Richard Simmons and twice visits the Pritikin Longevity Center which he says is rehab for people who eat too much pizza Larry David s rooting for him Jerry Seinfeld s plotting against him And his wife is just plain annoyed by everything As far as going green Jeff has always been a big recycler but he has a lot to learn For example actor Ed Begley Jr is the guy to call if you want to reduce your environmental impact Jeff does and it changes everything He hopes that being healthy and green becomes a big part of who he is if not now when
