Introduction to Yoga

This book is going to tell you a little bit about yoga I am not going to go very deeply in to the esoteric and traditional aspects of yoga because that knowledge is only gained through years of training by a wise and experienced guru but you are going to get to know more about this ancient tradition which has come down to benefit mankind down the ages

What is Yoga

Ask any health conscious person this question and he is going to inspect the ceiling thoughtfully and say something on the lines of ahhh umm

Is not yoga made up of some exercise routines in which you lie down on a mat and twist your body into different shapes

These exercises are to get rid of weight and will make sure that you keep fit fine and healthy

When you nod and say Go on he is going to continue enthusiastically

And then you are going to be chanting some mantras all the time that you are doing these exercises because that is the way it is done

Hold it right there

You are right that yoga is basically a set of exercises but let me explain about the idea of mantras and chanting

This idea that you have to chant instant mantras in praise of the gods is perhaps the reason why so many people are not taking benefit of this ancient Eastern tradition

That is because they consider this to be religion area and civilization specific

This is definitely not so

An American friend once asked me if I practiced yoga being an Indian I nodded and she replied a bit bewildered

But you are not a Hindu

So why would you want to practice yoga

And then she shrugged her shoulders and said Well I guess it is just a passing phase this interest in yoga

This was 20 years ago and for all those people out there who still are under the impression that yoga is a religion specific tradition let me tell

you a little bit about this ancient traditional way of keeping healthy And I am glad to see that she has been proven wrong because Yoga is definitely not a fad It is not here today gone tomorrow More and more people in the West and also all over the world are getting interested in this natural way of keeping healthy and physically emotionally spiritually and mentally fit Yoga has been around for more than 5000 years It has been practiced in Asia in different ways and under different names with one goal achievement of spiritual harmony and physical well being The Chinese have their own version of yoga Taichi and Taijiquan which includes mental and physical exercises including meditation So have plenty of old Eastern civilizations down the ages Yoga is a state of mind it is also the art of living in which the mind body and spirit work in tandem to achieve the state of mental physical and emotional harmony And if that is too philosophical for you you can consider yoga to be a system in which you are getting in touch with your mind body and spirit in a really positive manner **Yoga Emma White,2020-06 START YOUR NEW LIFESTYLE DOING YOGA EVERY DAY** Do you want to learn what is YOGA Do you want to know how to do YOGA Do you want a quick guide to give you the perfect start Do you want beginners intermediate and advanced YOGA poses This is your book In my short book you will learn all you need to know about the famous YOGA that everyone seems to be doing Learn now What is Yoga Healing Your Mind and Body Yoga Workouts and Training Center Yoga Workout Stages BEGINNER to ADVANCED Levels ARE YOU READY TO START PRACTICING YOUR YOGA POSES NOW Press the BUY NOW button and get started right away Tags Hatha yoga poses kundalini yoga guide beginners advanced workouts bidkram surya yin ashtanga yogaday international yoga home online classes c940 corepower mat eagle position
